BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Acquisition University Board of Visitors; Notice of Federal Advisory Committee Meeting

AGENCY: Defense Acquisition University, DoD.

ACTION: Meeting notice.

SUMMARY: The Department of Defense is publishing this notice to announce a Federal Advisory Committee meeting of the Defense Acquisition University Board of Visitors. This meeting will be open to the public.

DATES: Wednesday, May 25, 2016, from 9:00 a.m. to 4:00 p.m.

ADDRESSES: DAU Headquarters, Bldg 202, 9820 Belvoir Road, Ft Belvoir, VA 22060.

FOR FURTHER INFORMATION CONTACT:

Caren Hergenroeder, Protocol Director, DAU. Phone: 703-805-5134. Fax: 703-805-5940. Email: caren.hergenroeder@dau.mil.

SUPPLEMENTARY INFORMATION: This meeting is being held under the provisions of the Federal Advisory Committee Act of 1972 (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), and 41 CFR 102-3.150.

Purpose of the Meeting: The purpose of this meeting is to report back to the Board of Visitors on continuing items of interest. *Agenda:*

9:00 a.m.—Welcome and

Announcements

9:10 a.m.—DAU Update

10:00 a.m.—Discussion with Functional Leads

12:00 p.m.—Lunch

1:00 p.m.—Discussion with Functional Lead/ASD(A)

2:45 p.m.—Scenario-based Discussions

4:00 p.m.—Adjourn

Public's Accessibility to the Meeting: Pursuant to 5 U.S.C. 552b and 41 CFR 102-3.140 through 102-3.165, and the availability of space, this meeting is open to the public. However, because of space limitations, allocation of seating will be made on a first-come, first served basis. Persons desiring to attend the meeting should call Ms. Caren Hergenroeder at 703-805-5134.

Written Statements: Pursuant to 41 CFR 102-3.140, and section 10(a)(3) of the Federal Advisory Committee Act of 1972, the public or interested organizations may submit written statements to the Defense Acquisition University Board of Visitors about its mission and functions. Written statements may be submitted at any time or in response to the stated agenda of a planned meeting of the Defense Acquisition University Board of Visitors.

All written statements shall be submitted to the Designated Federal Officer for the Defense Acquisition University Board of Visitors, and this individual will ensure that the written statements are provided to the membership for their consideration.

Statements being submitted in response to the agenda mentioned in this notice must be received by the Designated Federal Officer at least five calendar days prior to the meeting which is the subject of this notice. Written statements received after this date may not be provided to or considered by the Defense Acquisition University Board of Visitors until its next meeting.

Committee's Designated Federal Officer or Point of Contact: Ms. Christen Goulding, 703-805-5412, christen.goulding@dau.mil.

Dated: April 26, 2016.

Aaron Siegel,

*Alternate OSD Federal Register Liaison
Officer, Department of Defense.*

Department of the Army, Corps of Engineers

City of Norfolk Flood Risk Management Study NEPA Scoping Meeting and Public Comment Period

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Intent/NEPA Scoping meeting and public comment period.

SUMMARY: Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, 42 U.S.C. 4321-4370, as implemented by the Council on Environmental Quality Regulations (40 CFR parts 1500-1508), the U.S. Army Corps of Engineers (USACE) plans to prepare a Feasibility Study with an integrated Environmental Impact Statement (EIS) to evaluate environmental impacts from reasonable

project alternatives and to determine the potential for significant impacts related to reduce future flood risk in ways that support the long-term resilience and sustainability of the coastal ecosystem and surrounding communities due to sea level rise, local subsidence and storms, and to reduce the economic costs and risks associated with large-scale flood and storm events in the City of Norfolk, Virginia.

DATES: Scoping comments may be submitted until June 30, 2016.

ADDRESSES: The public is invited to submit NEPA scoping comments at the meeting and/or submit comments to Mr. David Schulte, Department of the Army, U.S. Army Corps of Engineers, Norfolk District, Fort Norfolk, 803 Front St., Norfolk, VA 23510 or via email: David.M.Schulte@usace.army.mil. The project title and the commenter's contact information should be included with submitted comments.

FOR FURTHER INFORMATION CONTACT:

David Schulte, (757) 201-7007.

SUPPLEMENTARY INFORMATION: Historical storms have impacted the City of Norfolk. In response to these storms, USACE is investigating measures to reduce future flood risk in ways that support the long-term resilience and sustainability of the coastal ecosystem and surrounding communities, and reduce the economic costs and risks associated with flood and storm events. In support of this goal, USACE completed the North Atlantic Coast Comprehensive Study, which identified nine high risk areas on the Atlantic Coast for further analysis based on preliminary findings.

The City of Norfolk was identified as one of the nine areas of high risk, or Focus Areas, that warrants an in-depth investigation into potential coastal storm risk management measures. The Norfolk Focus Area is located on the southern shore of the Chesapeake Bay identified as one of the highest risk areas for relative sea level rise on the Atlantic Coast.

USACE is the lead federal agency and the city of Norfolk will be the non-federal sponsor for the study. The city of Norfolk has experienced an accelerating increase in nuisance flooding due to storms of varying magnitude, with large storms (nor'easters and hurricanes) often causing major flooding in many areas of the City. The most recent events that flooded major portions of the City were the November 2009 Northeaster, and Hurricanes Isabel (2003), Irene (2011), and Sandy (2012). The feasibility study will address potential structural and non-structural alternatives to mitigate
