B. Need and Uses

This justification supports an extension of OMB Control No. 9000–0079. This clearance covers the information that contractors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

1. FAR 31.205–46(a)(3)—In special or unusual situations, costs incurred by a contractor for lodging, meals, and incidental expenses, may exceed the per diem rates in effect as set forth in the Federal Travel Regulation (FTR) for travel in the contiguous 48 United States. The actual costs may be allowed only if the contractor provides the following:

a. FAR 31.205–46(a)(3)(ii)—A written justification for use of the higher amounts approved by an officer of the contractor’s organization or designee to ensure that the authority is properly administered and controlled to prevent abuse.

b. FAR 31.205–46(a)(3)(iii)—Advance approval from the contracting officer if it becomes necessary to exercise the authority to use the higher actual expense method repetitively or on a continuing basis in a particular area.

c. FAR 31.205–46(a)(3)(iv)—Documentation to support actual costs incurred including a receipt for each expenditure of \$75.00 or more.

2. FAR 31.205–46(c) requires firms to maintain and make available manifest/logs for all flights on company aircraft. As a minimum, the manifest/log must indicate:

a. Date, time, and points of departure;
b. Destination, date, and time of arrival;

c. Name of each passenger and relationship to the contractor
d. Authorization for trip; and
e. Purpose of trip.

The information required by (2)(a) and (b) and the name of each passenger (required by (2)(c)) are recordkeeping requirements already established by Federal Aviation Administration regulations. This information, plus the additional required information, is needed to ensure that costs of owned, chartered, or leased aircraft are properly charged against Government contracts and that directly associated costs of unallowable activities are not charged to Government contracts.

The contracting officer will use the information to ensure that the Government does not reimburse contractors for excessive travel costs.

Also, the information is used by Government auditors to identify allowable and unallowable costs under Government contracts.

C. Annual Burden

Respondents/Recordkeepers: 3,743.
Total Annual Responses: 33,202.
Total Burden Hours: 11,472. (7,848 reporting hours + 3,624 recordkeeping hours).

D. Public Comment

A 60-day notice was published in the **Federal Register** at 87 FR 9356, on February 18, 2022. No comments were received.
