One proposed agreement is titled "Consent Decree with Group Defendants and Other Potentially Responsible Persons for Recovery of Past Response Costs" ("Consent Decree") and the other is titled "Stipulation of Settlement and Order of Dismissal Between United States and Exide Corporation" ("Stipulation of Settlement").

In its Complaint, the United States seeks to recover response costs incurred by the United States in connection with the Four County Landfill Site in Fulton County, Indiana (the "Site"). The complaint alleges that the United States undertook response actions as a result of releases or threatened releases of hazardous substances at the Site, and that the defendants named in the complaint were jointly and severally liable for the costs of such response actions.

Under the proposed Consent Decree, a group of ten defendants (along with 28 additional parties who allegedly contributed hazardous wastes to the Site) will pay \$213,915 to the Hazardous Substances Superfund as partial reimbursement of response costs that the United States paid in connection with the Site through April 30, 2002. Under the proposed Stipulation of Settlement, Exide has agreed to the entry of judgment against it for \$35,405 in settlement of the United States' claims for recovery of response cost that the United States paid in connection with the Site through May 2, 2002. Exide filed a voluntary petition for bankruptcy in the United States Bankruptcy Court for the District of Delaware on April 15, 2000, which was docketed as *In Re Exide Technologies, et al.*, Bankruptcy No 02-11125. Under the terms of the Stipulation of Settlement, the United States shall be allowed a general unsecured claim in the bankruptcy proceeding for the agreed judgment amount of \$35,405.
