On February 28, and April 3, 2012, the NRC conducted a special inspection at the Bastow facility in South Haven, Michigan, with continued in-office review through May 24, 2012. The details of the inspection were documented in NRC Inspection Report No. 03035710/2012001(DNMS) issued to Bastow on December 19, 2012. This document is available in the NRC's Agencywide Documents Access and Management System (ADAMS) at accession number *ML12356A238*. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. During the inspection, several unresolved items were identified that required further NRC review. The NRC Office of Investigations (OI) began an investigation on April 2, 2012 into several of the issues. OI completed its investigation on January 31, 2013. On April 18, 2013, the NRC issued letters to Bastow, UND, and Armando Clavero, providing them with the preliminary results of the investigation and requesting further input from them through a predecisional enforcement conference, alternative dispute resolution, or written response. These letters are available in ADAMS at
