SUPPLEMENTARY INFORMATION:

The Commission has received correspondence from Carol Pollack-Nelson, Ph.D. ("petitioner"), dated May 23, 2011, requesting that we initiate rulemaking to require safeguards for glass fronts of gas vented fireplaces. We are docketing this request as a petition under the Consumer Product Safety Act, 15 U.S.C. 2056 and 2058. Petitioner notes that the industry standard for gas vented fireplace heaters allows glass fronts to reach temperatures of 500 degrees Fahrenheit, and that these glass fronts are accessible to children. Petitioner claims that, according to the U.S. Consumer Product Safety Commission's National Electronic Injury Surveillance System database (NEISS), more than 2,000 children ages 0-5 years suffered burn injuries on gas fireplaces in the period between 1999 and March 2009. Petitioner believes the hazard posed by gas fireplaces is due to a combination of factors, "including the high surface temperature of the fireplace glass, the accessible location of the glass front, the attractiveness of fire to young children, and the lack of consumer awareness of the hazard." Petitioner states that passive interventions, such as an "integral safety screen," are needed to protect children. Petitioner asks the Commission to develop a mandatory standard for gas fireplaces that requires

a protective barrier, guard or other device for any accessible surface that, if contacted, is hot enough to cause severe burns.

Subsequent to the receipt of this petition, the Commission received a submission from Mr. William S. Lerner, also requesting that the Commission initiate rulemaking regarding glass fronts of gas fireplaces. Mr. Lerner asks the Commission to require a “high temperature warning system,” which will “project a clear high temperature alert onto the glass front of the fireplace that will remain visible from the time the fireplace is lit until the glass is cool enough to touch safely.” We also seek comment on his proposal.

Interested parties may obtain a copy of the petition and subsequent submission by writing or calling the Office of the Secretary, U.S. Consumer Product Safety Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504-7923. Copies of these documents are also available for inspection from 8:30 a.m. to 5 p.m., Monday through Friday, in the Commission’s Public Reading Room, Room 419, 4330 East West Highway, Bethesda, MD, or from the Commission’s Web site at: <http://www.cpsc.gov>.

Todd A. Stevenson,
Secretary, U.S. Consumer Product Safety Commission.
