Abstract: This information collection request pertains to trade secrecy claims submitted under section 322 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA). EPCRA contains provisions requiring facilities to report to state and local authorities, and EPA, the presence of extremely hazardous substances (section 302), inventory of hazardous chemicals (sections 311 and 312) and manufacture, process and use of toxic chemicals (section 313). Section 322 of EPCRA allows a facility to withhold the specific chemical identity from these EPCRA reports if the facility asserts a trade secret claim for that chemical identity. The provisions in section 322 establish the requirements and procedures that facilities must follow to request trade secret treatment of chemical identities, as well as the procedures for submitting public petitions to the Agency for review of the "sufficiency" of trade secret claims.

Trade secret protection is provided for specific chemical identities contained in reports submitted under each of the following sections of EPCRA: (1) Section 303(d)(2)—Facility notification of changes that have or are about to occur; (2) section 303(d)(3)—Local Emergency Planning Committee (LEPC) requests for facility information to develop or implement emergency plans; (3) section 311—Material Safety Data Sheets (MSDSs) submitted by facilities, or lists of those chemicals submitted in place of the MSDSs; (4) section 312—Emergency and Hazardous Chemical Inventory forms (Tier I and Tier II); and (5) section 313—Toxic Chemical Release Inventory form.

Form Numbers: EPA Form 9510-1.

Respondents/affected entities: Entities potentially affected by this action are manufacturer and non-manufacturer facilities subject to reporting under sections 303, 311, 312 or 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA).

Respondent's obligation to respond: Mandatory if a respondent decides to make a trade secret claim for the chemical identity for any of the chemicals in any of the reports the respondent is required to submit under EPCRA sections 303, 311, 312 or 313.

Estimated number of respondents: 283 trade secret claims.

Frequency of response: Annual, with reports submitted under sections 312 and 313.

Total estimated burden: 2,689 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$164,989 (per year). There are no capital or operation and maintenance costs associated with this ICR.

Changes in estimates: The small increase in estimated burden from the previous ICR is because the actual number of claims submitted was slightly higher than what EPA estimated it would receive in the previous ICR. Therefore, the number of trade secret claims EPA expects to receive in the upcoming three-year renewal period is also higher.

Director, Regulatory Support Division.
