operating a program assisting very low- and low-income persons obtain housing assistance: 10 points.

(3) If the organization has administered grant programs, there are no outstanding or unresolved audit or investigative findings which might impair carrying out the proposal: 10 points.

(d) The proposed program will be undertaken entirely in rural areas outside Metropolitan Statistical Areas, also known as MSAs, identified by Rural Development as having populations below 10,000 or in remote parts of other rural areas (*i.e.,* rural areas contained in MSAs with less than 5,000 population) as defined in 7 CFR 1944.656: 10 points.

(e) The program will use less than 20 percent of HPG funds for administration purposes:

(1) More than 20%: Not eligible.
(2) 20%: 0 points.
(3) 19%: 1 point.
(4) 18%: 2 points.
(5) 17%: 3 points.
(6) 16%: 4 points.
(7) 15% or less: 5 points.

(f) The proposed program contains a component for alleviating overcrowding as defined in 7 CFR 1944.656: 5 points.

In the event more than one preapplication receives the same amount of points, those preapplications will then be ranked based on the actual percentage figure used for determining the points for Section VII (a). Further, in the event that preapplications are still tied, then those preapplications still tied will be ranked based on the percentage for HPG fund use (low to high). Further, for applications where assistance to rental properties or cooperatives is proposed, those still tied will be further ranked based on the number of years the units are available for occupancy under the program (a minimum of 5 years is required). For this part, ranking will be based from most to least number of years.

Finally, if there is still a tie, then a lottery system will be used. After the award selections are made all applicants will be notified of the status of their applications by mail.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Institutional Remittances to Foreign Countries Survey (Form BE–40) is used by the Bureau of Economic Analysis (BEA) for compiling the U.S. international transactions accounts (ITAs), which BEA publishes quarterly in news releases, on its Web site, and in its monthly journal, the *Survey of Current Business.* These accounts provide a statistical summary of all U.S. international transactions and are a principal federal economic indicator. In addition, they provide data for other U.S. economic measures and accounts, contributing particularly to the National Income and Product Accounts. The ITAs are used extensively by both government and private organizations for national and international economic policy formulation and for analytical purposes. The information collected in this survey is used to develop the "private remittances" portion of the ITAs. Without this information, an integral component of the ITAs would be omitted. No other government agency collects comprehensive quarterly data on institutional remittances of funds to foreign counties. There are no changes proposed to the form or instructions.

Potential respondents are U.S. religious, charitable, educational, scientific and similar organizations that voluntarily agree to provide data regarding transfers to foreign residents and organizations and their expenditures in foreign countries.

II. Method of Collection

Survey forms are mailed to potential respondents in January of each year; respondents expected to file on a quarterly basis are sent multiple copies. Quarterly reports are due 30 days after the close of each calendar or fiscal quarter and annual reports are due 90 days after the close of the calendar or fiscal year.

The information is collected quarterly from organizations remitting $1 million or more each year and annually for organizations remitting at least $100,000 but less than $1 million each year. Organizations with remittances of less than $100,000 in the year covered by the report are exempt from reporting.
