#### Approval and Promulgation of Implementation Plan Louisiana; Nonattainment Major Stationary Source Revision

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** In this action, EPA is proposing to approve a revision to the Louisiana State Implementation Plan (SIP), relating to "Nonattainment New Source Review Procedures." This revision was submitted on July 25, 1997, by the Governor of Louisiana to EPA for approval. This revision removes a provision from the State's regulations, Title 33 of the Louisiana Administrative Code, chapter 5, section 504, that treated nitrogen oxides (NO<sub>x</sub>) as precursors to ozone in ozone nonattainment areas. This makes the State regulation consistent with earlier actions by EPA that exempted NO<sub>x</sub> as an ozone precursor in the Baton Rouge and Lake Charles nonattainment areas. In addition, this regulation also contains several administrative revisions that are non-substantive in nature and do not alter the meaning of the rule (such as corrections of capitalization errors).

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because EPA views this as a noncontroversial amendment and anticipates no adverse comment. The EPA has explained reasons for this approval in the preamble to the direct final rule. If EPA receives no relevant adverse comment, EPA will take no further action on this proposed rule. If EPA receives relevant adverse comment, EPA will withdraw the direct final rule and it will not take effect. In that event, EPA will address all relevant public comments in a subsequent final rule based on this proposed rule. In either event, EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time.

**DATES:** Written comments must be received by July 2, 2001.

**ADDRESSES:** Written comments should be addressed to Ms. Jole C. Luehrs, Chief, Air Permits Section (6PD-R), Attention: Ms. Wendy Jacques, at the EPA Region 6 office listed below. Copies of documents relevant to this action are available for public inspection during normal business hours at the following locations:

#### Approval and Promulgation of Implementation Plans; Indiana

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA is proposing to approve revisions to particulate matter (PM) emissions regulations for the Johns Manville Corporation (Johns Manville) of Wayne County, Indiana. The Indiana Department of Environmental Management (IDEM) submitted the revised regulations on December 30, 1999 as an amendment to its State Implementation Plan (SIP). The revisions consist of increasing seven long-term limits, decreasing one short-term limit, removing an emissions

source, and changing the company's name. These revisions will allow the Johns Manville facility to operate 8760 hours annually.

**DATES:** The EPA must receive written comments on this proposed rule by July 2, 2001.

**ADDRESSES:** You should mail written comments to: J. Elmer Bortzer, Chief, Regulation Development Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

You may inspect copies of Indiana's submittal at: Regulation Development Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.
