Questions about this notice can be directed to Mark Freedman, Senior Associate General Counsel, at 202-295-1623.

SUPPLEMENTARY INFORMATION: LSC will have \$19,000,000 available for 2022 Disaster Supplemental Appropriation

grants to support delivery of legal services related to the consequences of hurricanes, flooding, wildfires, severe storms, and other extreme weather that occurred during calendar year 2022. Grant awards for these funds will begin in July of 2023. LSC has created a list of eligible disasters and posted it at www.lsc.gov/disastergrants. The eligible disasters list includes all areas covered by the Federal Emergency Management Agency's (FEMA) Major Disaster Declarations that include Individual Assistance and/or Public Assistance. LSC relies on data from FEMA's website. See <https://www.fema.gov/disaster/declarations>.

LSC Disaster Project Grants include a new opportunity this year. Any LSC Grantee, regardless of whether they have an eligible disaster in their service area, that has extensive experience in disaster response and preparation may apply for a Project Grant to provide mentorship and collaboration services to other 2022 Disaster Supplemental Appropriations Grantees.

LSC will award two types of grants under the 2022 Disaster Supplemental Appropriation funding opportunity: Project Grants and Incurred Costs Grants. Applicants are encouraged to apply for both Project and Incurred Costs grants, if applicable.

(1) *Project Grants* are available to for up to a 36-month term starting July 1, 2023.

(2) *Incurred Costs Grants* are available to reimburse grantees for costs incurred prior to July 1, 2023 (including estimated incurred costs through June 30, 2023).

Applicants can apply for any grant amount above \$25,000. There is no cap amount on the funds an eligible applicant can request for grants that are within the total funding available.

Eligible Applicants

Applicants must be current LSC grantees receiving Basic Field—General, Basic Field—Agricultural Worker, or Basic Field—Native American funding.

In addition, any LSC Grantee, regardless of whether they have an eligible disaster in their service area, that has extensive experience in disaster response and preparation may apply for a Project Grant to provide mentorship and collaboration services to other 2022 Disaster Supplemental Appropriations Grantees.

Organizations and entities that are not current LSC grantees are not eligible to apply directly to LSC for these grants. Nonetheless, collaborations between LSC grantees and project partner organizations can strengthen disaster delivery systems and avoid duplication

of services and are therefore encouraged.

If you are unsure if your organization is eligible to apply or have questions about the eligible disasters list, please contact the LSC Disaster Team at LSCdisastergrants@lsc.gov.

Eligible Activities and Expenses

Applicants are permitted to use Project and Incurred Costs Grant funds for any activities and expenses that are allowable pursuant to the LSC Act if they are related to the consequences of hurricanes, flooding, wildfires, severe storms, and other extreme weather that occurred in the calendar year 2022.

Funds from these grants cannot be used for disaster preparedness activities for future disasters, except insofar as funded activities undertaken to respond to the listed disasters will also have continuing value in preparing for and responding to future disasters.

In addition to hiring and supporting staff, eligible activities can include, but are not limited to, the leasing of new office space in an area hard-hit by a disaster and adjacent to survivors with legal needs related to the disaster, purchasing office equipment and supplies, hiring a project or grant manager, or hiring of other administrative support staff—if the activities and expenses are related to the consequences of eligible disasters.

Before submitting an application involving a subgrant or third-party contract with grant funds, applicants should be familiar with LSC's subgrant and contracting requirements at 45 CFR parts 1627 (Subgrants) and 1630 (Cost Standards), particularly as they pertain to paying third-parties to conduct programmatic activities. Certain contracts and all subgrants require prior approval under 45 CFR parts 1627 (Subgrants) and 1630 (Cost Standards). Applicants must also consider arrangements with other organizations as part of their compliance with the program integrity requirements of 45 CFR 1610.8.

LSC issues this notice pursuant to 42 U.S.C. 2996g(e).

Dated: March 15, 2023.
