

Ltd., a Bermuda company limited by shares, which controls Watt as its general partner. The remaining 49 percent interest in Watt and Watt GP Ltd. will be held by Cameco Corporation.

There will be no direct transfer of control involved with the transaction because Westinghouse will continue to be the licensee. There will also be no change in the management or technical personnel responsible for licensed activities. The current safety, security, and licensing organizations within Westinghouse will remain unchanged. Additionally, there are no planned changes in the operational organization, location, facilities, equipment, or procedures associated with the NRC licenses, and there will be no changes in Westinghouse operating procedures, emergency procedures, or decommissioning financial assurance. Because the licensee remains the same, there will be no physical transfer of any records concerning the safe and effective decommissioning of the facility, public dose, and waste disposal, and such records will remain with Westinghouse. No physical or operational changes affecting the Westinghouse sites and licensed activities were proposed in the Application.

Westinghouse requested the NRC's consent to the indirect transfer of control, pursuant to Section 184 of the Atomic Energy Act of 1954, as amended (the Act or AEA), and title 10 of the *Code of Federal Regulations* (10 CFR) section 70.36 and 110.50. A notice of receipt of the Application and opportunity to request a hearing and provide written comments was published in the **Federal Register** on February 16, 2023 (88 FR 10146). The NRC did not receive any comments or requests for a hearing in response to the notice.

Section 184 of the AEA provides that no NRC license shall be transferred, assigned, or in any manner disposed of, directly or indirectly, through transfer of control of any license to any person unless the Commission, after securing full information, finds that the transfer is in accordance with the provisions of the AEA, and gives its consent in writing. Pursuant to 10 CFR 70.36, no 10 CFR part 70 license shall be transferred, assigned, or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, unless the NRC, after securing full information, finds that the transfer is in accordance with the provisions of the Act, and gives its consent in writing. After review of the information in the Application, and relying on the representations and

agreements contained in the Application, the NRC staff has determined that Watt is qualified to hold the ownership interests previously held by WEC Holdings, and that the transfer of ownership and operating interests to Watt, described in the Application, is otherwise consistent with applicable provisions of law and regulations. The NRC staff further finds that the requested transfer of control will not be inimical to the common defense and security or to the health and safety of the public. The findings set forth above are supported by the NRC's Safety Evaluation Report issued with this Order. These findings are subject to the conditions set forth below.

III

Accordingly, pursuant to Sections 161.b., 161.i., 183, and 184 of the Act; 42 U.S.C. 2201(b), 2201(i), 2233, and 2234; and 10 CFR 70.36, IT IS HEREBY ORDERED that the Application regarding the indirect transfer of control over licenses listed above from WEC Holdings to Watt, is approved, subject to the following conditions:

1. With respect to the licenses listed above, Westinghouse shall continue to abide by all commitments and representations it previously made. These include, but are not limited to, maintaining decommissioning records and financial assurance, conducting decontamination activities, and eventually decommissioning the site.
2. The commitments/representations made in the Application regarding reporting relationships and authority over safety and security matters as well compliance with NRC requirements, shall be adhered to and may not be modified without the prior written consent from the Director, Office of Nuclear Material Safety and Safeguards, or that person's designee.

It is further ordered that Westinghouse, at least one (1) business day before all actions necessary to accomplish the indirect transfer of control are completed, shall so inform the Director, Office of Nuclear Material Safety and Safeguards, in writing. Should the proposed indirect transfer not be completed within one year from the date of issuance of this Order, the Order shall become null and void; provided, however, upon timely written application and for good cause shown, such completion date may be extended by Order.

This Order is effective upon issuance. For further details with respect to this Order, see the Application cited in section II above, and the Safety Evaluation Report supporting this action (ADAMS Accession Number

ML23096A282), which are available for public inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area 01-F21, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible, electronically, through the ADAMS Public Electronic Reading Room, on the internet, at the NRC website, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR reference staff, by telephone, at 1-800-397-4209, 301-415-4737, or via email, to pdr@nrc.gov.

Dated and issued this 15th day of May, 2023.

For the Nuclear Regulatory Commission.

SUPPLEMENTARY INFORMATION:**Table of Contents**

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the Market Dominant or the Competitive product list, or the modification of an existing product currently appearing on the Market Dominant or the Competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505

(Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern Market Dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3030, and 39 CFR part 3040, subpart B. For request(s) that the Postal Service states concern Competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3040, subpart B. Comment deadline(s) for each request appear in section II.
