SUPPLEMENTARY INFORMATION:

I. Abstract and request for comments

NCUA is reinstating and amending the collection for 3133-0032. Credit union records preservation programs enable NCUA to ensure that federally-insured credit unions (FICUs) can reconstruct their vital records in the event that records are destroyed by a catastrophe and facilitates restoration of vital member services. The program does not have to be submitted to the NCUA but must be available for review by examination staff. The frequency of collection will be unique to each credit union based on its operations, storage schedule, and storage methods, but occurs on a flow basis at least quarterly. NCUA has modified the cost basis for this data collection to focus on the recordkeeping labor cost of maintaining a records preservation program rather than the technology cost to store records offsite. NCUA believes that electronically backing up and storing credit union records offsite has become a usual and customary business practice. Therefore, credit union labor costs are the appropriate recordkeeping burden associated with maintaining a records preservation program under Part 749. This is the primary reason why the total annual burden has decreased, along with a decline in the number of FICUs from 8,420 to 6,753 and newly chartered FICUs from 15 to 5.

The NCUA requests that you send your comments on this collection to the location listed in the addresses section. Your comments should address: (a) The necessity of the information collection for the proper performance of NCUA, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents such as through the use of automated collection techniques or other forms of information technology. It is NCUA's policy to make all comments available to the public for review.

SUPPLEMENTARY INFORMATION:

I. Abstract and Request for Comments

NCUA is amending/reinstating the collection for 3133-0033. NCUA is renewing the requirements for Federally Insured Credit Unions to maintain an information security program and an incident response plan that complies with Title V of the Gramm-Leach-Bliley Act, 15 U.S.C. 6801 et seq. Section 748.0 of NCUA's regulations, 12 CFR 748.0, directs federally insured credit unions to adopt a security program that includes ensuring the security and confidentiality of member records, protecting against the anticipated threats or hazards to the security or integrity of such records, and protecting against unauthorized access to or use of such records that could result in substantial harm or serious inconvenience to a member. The security program also contains a requirement to respond to incidents of unauthorized access to or use of member information that could result in substantial harm or serious inconvenience to a member. Proper incident response includes a notification requirement to the affected member. NCUA examiners review the programs to determine whether the credit union's procedures comply with the information security and incident response requirements. There is a decrease of 39,776 hours from the last submission (2007). The decrease is a result of an adjustment to the number of credit unions from 8,695 to 6,753. This decline is from credit union mergers and liquidations.

The NCUA requests that you send your comments on this collection to the location listed in the addresses section.

Your comments should address: (a) The necessity of the information collection for the proper performance of NCUA, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents such as through the use of automated collection techniques or other forms of information technology. It is NCUA's policy to make all comments available to the public for review.

SUPPLEMENTARY INFORMATION:

I. Abstract and Request for Comments

NCUA is reinstating the collection for 3133-0114. The collection of information requirement is that those credit unions seeking an exemption from the nonmember deposit limit must adopt a specific written plan and submit their lending and investment policies, a copy of their latest financial statement, and an explanation of the request to the NCUA Regional Director. NCUA uses this information to determine whether a particular credit union will be granted an exemption to the limit on nonmember and public unit deposits. This collection of information is necessary to protect the National Credit Union Share Insurance Fund ("Fund"). There is no change to the burden hours from previous submissions.

The NCUA requests that you send your comments on this collection to the location listed in the addresses section. Your comments should address: (a) The necessity of the information collection for the proper performance of NCUA, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and

cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents such as through the use of automated collection techniques or other forms of information technology. It is NCUA's policy to make all comments available to the public for review.
