

developing an EIS. The BLM plans to hold one virtual meeting during the scoping period. The specific date and details of the scoping meeting will be announced at least 15 days in advance through the BLM website at <https://go.usa.gov/xehyU>.

Request for Identification of Potential Issues, Alternatives, Information, and Analyses Relevant to the Proposed Action

The BLM requests assistance with identifying potential alternatives to the proposed action to be considered. As alternatives should resolve a problem with the proposed action, please indicate the purpose of the suggested alternative. The BLM also requests the identification of potential impacts that should be analyzed. Impacts should be a result of the action; therefore, please identify the activity and the potential resulting impact that should be analyzed. Information have that would assist in the development of alternatives or analysis of resource issues is also helpful.

Lead and Cooperating Agencies

The BLM is the lead agency for this analysis. Cooperating agencies include: U.S. Forest Service; U. S. Army Corps of Engineers; Wyoming Department of Agriculture; Wyoming Department of Environmental Quality; Wyoming Game and Fish Department; Wyoming Governor's Office; Wyoming Office of Outdoor Recreation; Wyoming Office of State Lands and Investments; Wyoming State Engineer's Office; Wyoming State Historic Preservation Office; Wyoming State Parks, Historic Sites, and Trails; Wyoming Industrial Siting Commission; Lincoln County Commissioners; Lincoln County Conservation District; Sweetwater County Commissioners; Sweetwater County Conservation District; Uinta County Commissioners; Uinta County Conservation District; Town of Granger; and Town of Green River. Consulting parties include: Eastern Shoshone Tribe of the Wind River Reservation; Northern Arapaho Tribe; Ute Tribe of the Uintah and Ouray Reservation; and Shoshone-Bannock Tribes of the Fort Hall Reservation.

Nature of Decision To Be Made

Following a thorough NEPA analysis, the BLM's decision will include whether to approve the Plan of Operations and SF-299 applications (for transportation and utility features) and, if approved, whether modifications and any additional mitigation measures are required to comply with the FLPMA mandate to prevent unnecessary or

undue degradation and conform to leasing stipulations specified in the BLM Kemmerer and Green River RMPs.

Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to resources from the proposed action and all reasonable alternatives and, in accordance with 40 CFR 1502.14(f), include appropriate mitigation measures not already included in the proposed action or alternatives. Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, and compensation; and may be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA process to help support procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public involvement requirements of Section 106. The information about historic and cultural resources and threatened and endangered species within the area potentially affected by the proposed plan will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Indian Tribes on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, state, and local agencies, along with Tribes and other stakeholders that may be interested in or affected by the proposed project that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.
