

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Rural Utilities Service

Dry Fork Station and Hughes Transmission Line

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of Extension of Public Comment Period, Draft Environmental Impact Statement, Dry Fork Station and Hughes Transmission Line, Wyoming.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS) is extending the public comment period for the Draft Environmental Impact Statement (EIS) for the Dry Fork Station and Hughes Transmission Line. The Draft EIS was prepared pursuant to the National Environmental Policy Act of 1969 (NEPA) (U.S.C. 4231, *et seq.*) in accordance with the Council on Environmental Quality (CEQ) regulations for implementing the procedural provisions of NEPA (40 CFR parts 1500 through 1508) and RUS regulations (7 CFR part 1794).

The Draft EIS is to evaluate the potential environmental impacts of and alternatives to the Basin Electric Power Cooperative, Inc. (Basin Electric) application for a loan guarantee to construct a generation facility referred to as the Dry Fork Station, consisting of a single maximum net 385 Megawatt

(MW) unit, at a site near Gillette, Wyoming, along with other proposed pollution controls collectively known as Best Available Control Technology (BACT). In addition, Basin Electric also proposes to construct and operate 136 miles of 230 kilovolt (kV) transmission line in Campbell and Sheridan counties, referred to as the Hughes Transmission Project. Basin Electric is not, however, requesting a loan guarantee from RUS for this action. However, the Hughes Transmission Project is evaluated as a connected action for this EIS because the Dry Fork Station would interconnect with it if the Station is built.

The Draft EIS was filed with the U.S. Environmental Protection Agency on August 24, 2007. Requests for extension of public comment periods may be honored per 40 CFR 1506.10. The initial 45-day public comment period was to end on October 15, 2007. With the 30-day extension, the new deadline for public comments is now November 19, 2007.

DATES: Written comments on this Draft EIS will be accepted on or before November 19, 2007.

ADDRESS FOR FURTHER INFORMATION: To send comments or for further information, contact: Richard Fristik, USDA, Rural Development Utilities Programs, 1400 Independence Avenue, SW., Stop 1571, Room 2240, Washington, DC 20250-1571, telephone (202) 720-5093, fax (202) 690-0649, or e-mail: Richard.Fristik@wdc.usda.gov.
