DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency Information Collection Request. 60-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the

Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed information collection request for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document

identifier, to

Sherette.funncoleman@hhs.gov, or call the Reports Clearance Office on (202) 690-6162. Written comments and recommendations for the proposed information collections must be received with 60-days, and directed to the OS Paperwork.

Proposed Project: SF-424 Short Organizational—Revision—OMB No. 4040-0003—Grants.gov.

Abstract: This is a request for a revision of a previously approved collection. The SF-424 Short organizational form is used by the 26 Federal grant-making agencies as a simplified alternative to the SF-424 standard form. Agencies may use the SF-424 Short Organizational form for grant programs not required to collect all the data that is required on the SF-424 standard form.

The form is being revised with changes to the data field that collects the Social Security Number (SSN). The SSN field is an optional field. The current collection pre-fills the first five

digits with “xxx-xx” and only collects the last four digits of the SSN. At OMB’s request, we reviewed the usefulness of collection of a portion of the SSN, by polling the Agencies that used the SF–

424 Short Organizational form; however, it was determined that the partial SSN is not useful for processing the SF–424 Short Organizational form by the Agencies. Therefore, no portion

of the SSN will be collected as part of the electronic grant application process. Frequency of data collection varies by Federal agency.

ESTIMATED ANNUALIZED BURDEN TABLE

Agency	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
NEA	4130	1	20/60	1377
NEH	2328	1	30/60	1,164
DOI	148	2.81	18/60	125

Written comments and recommendations for the proposed information collections must be directed to the OS Paperwork Clearance Officer at the above e-mail address within 60 days.

Proposed Project: Evaluation of HIV Prevention Program for Women—OMB No. 0990—New-Office on Women’s Health (OWH).

Abstract: The Office on Women’s Health (OWH) is seeking a new clearance to conduct data collection activities associated with the three-year evaluation of HIV/AIDS prevention programs at minority institutions for college women. The evaluation will assess the effectiveness of gender-centered HIV prevention models employed to address the needs of college women attending six (6) Historically Black Colleges and

Universities, four (4) Hispanic Serving Institutions, and two (2) Tribal Colleges and Universities. Evaluation data will assess the extent to which gender sensitive interventions employed by these institutions impact HIV/AIDS related knowledge, attitudes, and risk behaviors. Results of the evaluation will identify the prevention outcomes for college women and the larger campus population.

The program goals are to (1) Identify effective methods to educate and increase awareness for prevention of HIV/AIDS and STDs; (2) develop capacity for young, minority women to address prevention education on campus; (3) establish partnerships and student organizations to increase health education, risk reduction, counseling, HIV/STD testing and (4) to ensure that the education is culturally and linguistically appropriate for young, minority women. HIV intervention recipients will complete a survey at pretest, post-test, and follow-up that assesses their HIV/AIDS knowledge, risk behaviors and gender specific attitudes. Student data will be submitted on a quarterly basis. Peer facilitators/health educators will participate in a yearly interview and project implementation staff will participate in individual interviews twice during each program year that assesses their experiences with the program.

ESTIMATED ANNUALIZED BURDEN TABLE
