

Cross, by choosing the price that is closest to the price that is 20% below the range, is consistent with Section 6(b)(5) of the Act because it is designed to protect investors by providing them with the most advantageous offering price among possible alternative prices.

Nasdaq also believes that the proposal, by eliminating an impediment to companies using a Direct Listing with a Capital Raise, will help removing potential impediments to free and open markets consistent with Section 6(b)(5) of the Exchange Act while also supporting capital formation.

Finally, Nasdaq believes that the proposal to clarify several provisions of the existing rules without changing them is designed to remove impediments to and perfect the mechanism of a free and open market because such changes make the rules easier to understand and apply without changing their substance.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposed amendments would not impose any burden on competition, but would rather increase competition. Nasdaq believes that allowing listing venues to improve their rules enhances competition among exchanges. Nasdaq also believes that this proposed change will give issuers interested in this pathway to access the capital markets additional flexibility in becoming a public company, and in that way promote competition among service providers, such as underwriters and other advisors, to such companies.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will: (a) By order approve or disapprove such proposed rule change, or (b) institute proceedings to determine

whether the proposed rule change should be disapproved.
