Request for Scientific Views on the Draft Recommended Aquatic Life Ambient Water Quality Criteria for Cadmium—2015

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The Environmental Protection Agency (EPA) is announcing its draft recommended aquatic life water quality criteria for cadmium for public comment. EPA is updating its national recommended ambient water quality criteria for cadmium in order to reflect the latest scientific information, and current EPA policies and methods. Following closure of this public comment period, EPA will consider scientific views from the public on this draft document as well as any new data or information received. EPA will then publish a **Federal Register** notice announcing the availability of the final cadmium criteria. Once finalized, EPA's water quality criteria for cadmium will provide recommendations to states and tribes authorized to establish water quality standards under the Clean Water Act. In adopting water quality standards, states set exposure protections for aquatic life; chronic exposure to cadmium negatively impacts growth, development, behavior, reproduction, and immune and endocrine systems in aquatic life.

DATES: Comments must be received on or before February 1, 2016.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–

OW–2015–0753, to the *Federal eRulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.
