

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Office of the Assistant Secretary for Planning and Evaluation; Medicare Program; Meeting of the Technical Advisory Panel on Medicare Trustee Reports**

AGENCY: Assistant Secretary for Planning and Evaluation, HHS.

ACTION: Notice of meeting.

SUMMARY: This notice announces a public meeting of the Technical Advisory Panel on Medicare Trustee Reports (Panel). Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. App. 2, section 10(a)(1) and (a)(2)). The Panel will discuss the long-term rate of change in health spending and may make recommendations to the Medicare Trustees on how the Trustees might more accurately estimate health spending in the long run. The Panel's discussion is expected to be very technical in nature and will focus on the actuarial and economic methods by which Trustees might more accurately measure health spending. Although panelists are not limited in the topics they may discuss, the Panel is not expected to discuss or recommend changes in current or future Medicare provider payment rates or coverage policy.

DATES: October 15, 2004, 8 a.m.–4 p.m. e.d.t.

ADDRESSES: The meeting will be held at HHS headquarters at 200 Independence Ave., SW., 20201, Room 705A.

Comments: The meeting will allocate time on the agenda to hear public comments. In lieu of oral comments, formal written comments may be submitted for the record to Jacob Kaplan, OASPE, 200 Independence Ave., SW., 20201, Room 447D. Those submitting written comments should identify themselves and any relevant organizational affiliations.

FOR FURTHER INFORMATION CONTACT:

Jacob Kaplan at (202) 401-6119, jacob.kaplan@hhs.gov. *Note:* Although the meeting is open to the public, procedures governing security procedures and the entrance to Federal buildings may change without notice. Those wishing to attend the meeting should call or e-mail Mr. Kaplan by October 11, 2004, so their name may be put on a list of expected attendees and forwarded to the security officers at HHS Headquarters.

SUPPLEMENTARY INFORMATION: On April 22, 2004, we published a notice

announcing the establishment and requesting nominations for individuals to serve on the Panel. The panel members are: Mark Pauly, Edwin Hustead, Alice Rosenblatt, Michael Chernew, David Meltzer, John Bertko, and William Scanlon.

Topics of the Meeting: The Panel is specifically charged with discussing and possibly making recommendations to the Medicare Trustees on how the Trustees might more accurately estimate the long term rate of health spending in the United States. The discussion is expected to focus on highly technical aspects of estimation involving economics and actuarial science. Panelists are not restricted, however, in the topics they choose to discuss.

Procedure and Agenda: This meeting is open to the public. Interested persons may observe the deliberations and discussions, but the Panel will not hear public comments until the end of Panel deliberations. The Commission will also allow an open public session for any attendee to address issues specific to the topic.

Authority: 42 U.S.C. 217a; Section 222 of the Public Health Services Act, as amended. The panel is governed by provisions of Public Law 92-463, as amended (5 USC Appendix 2), which sets forth standards for the formation and use of advisory committees.

Dated: September 29, 2004.

Michael J. O'Grady,

Assistant Secretary for Planning and Evaluation.

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210 or send an email to omb@cdc.gov. Send written comments to CDC Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202)

395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Active Surveillance of Ciguatera in Culebra, Puerto Rico—New—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Ciguatera fish poisoning (CFP) is a serious health threat to people in Puerto Rico. Many finfish that live in the island's coral reefs carry ciguatera toxin. When people consume these finfish, they can get CFP, a condition that causes gastrointestinal and neurological symptoms. To quantify the health burden caused by CFP, the local department of health tallies the number of cases of CFP reported by health care providers on the island. A recent evaluation of this passive surveillance system determined that the majority of CFP cases that occur on the island are missed. To accurately quantify the health threat of CFP to the population in Puerto Rico, the National Center for Environmental Health, Centers for Disease Control and Prevention, in conjunction with the Puerto Rico Department of Health, will conduct active surveillance for CFP for twelve (12) months in Puerto Rico.

This active surveillance system will quantify the public health burden of CFP by determining the incidence, risk factors, and economic effect of CFP in Culebra, Puerto Rico. Household questionnaire, Part B will be administered to each household in Culebra every four (4) months for one (1) year. This questionnaire elicits information on household fish consumption and identifies individuals who have developed symptoms of CFP. A second questionnaire will be administered once individuals having symptoms compatible with CFP are identified. This second questionnaire explores personal risk factors, medical management, and costs incurred while the individuals were ill with CFP. To confirm the presence of ciguatera toxin in affected areas, fish will be collected from local reefs, fish vendors, and any appropriate leftover fish from people with CFP. The fish will be analyzed by the U.S. Food and Drug Administration.

Ultimately, the information provided by this study will aid the Puerto Rico Department of Health in controlling the health threat of CFP. Quantifying the incidence, risk factors, and economic burden of CFP will guide the development of preventive strategies. The annualized burden to respondents is estimated to be 250 hours.
