Participant-Level Data Collection (New Section)

Participant-level data will be collected from all participants in direct service programs which last 30 days or more. Two instruments will be used for this purpose, one for participants aged

12–17 (youth instrument) and another for participants aged 18 or older (adult instrument). The core sections of the two instruments will be the CSAP NOMs Adult and Youth Programs Survey Forms (OMB–0930–0230).

The participant-level instruments will be administered to each participant at

program entry, program exit, and six months after program exit. The following burden estimation is based on the assumption that each subrecipient community will serve 50 participants per year in direct-service interventions lasting 30 days or more, amounting to 12,000 participants per year.
