

NUCLEAR REGULATORY COMMISSION**[Docket No. 72-4]****Duke Energy Corporation; Notice of Docketing of the Materials License SNM-2503; Amendment Application for the Oconee Independent Spent Fuel Storage Installation**

By letter dated October 31, 2001, Duke Energy Corporation (DEC) submitted an application to the Nuclear Regulatory Commission (NRC or Commission) in accordance with 10 CFR part 72 requesting an amendment of the Oconee independent spent fuel storage installation (ISFSI) license (SNM-2503) for the ISFSI located in Oconee County, South Carolina. DEC is seeking Commission approval to amend its license to change the ISFSI's technical specifications for environmental reporting to the NRC. DEC has requested to change the frequency for submitting an environmental report of radioactive effluent releases from semi-annually to annually, in accordance with current NRC environmental reporting requirements in 10 CFR 72.44(d).

This application was docketed under 10 CFR part 72; the ISFSI Docket No. is 72-4 and will remain the same for this action. The amendment of an ISFSI license is subject to the Commission's approval.

The Commission may issue either a notice of hearing or a notice of proposed action and opportunity for hearing in accordance with 10 CFR 72.46(b)(1) or, if a determination is made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected, take immediate action on the amendment in accordance with 10 CFR 72.46(b)(2) and provide notice of the action taken and an opportunity for interested persons to request a hearing on whether the action should be rescinded or modified.

For further details with respect to this application, see the application dated October 31, 2001, which is available for public inspection at the Commission's Public Document Room, One White Flint North Building, 11555 Rockville Pike, Rockville, MD or from the publicly available records component of NRC's Agencywide Documents Access and Management System (ADAMS) under Accession No. ML020230028. The NRC maintains ADAMS, which provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm.html>. If you do not have access to ADAMS or

if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 12th day of March 2002.

For the Nuclear Regulatory Commission.
E. William Brach,
Director, Spent Fuel Project Office, Office of Nuclear Material Safety, and Safeguards.

NUCLEAR REGULATORY COMMISSION**[Docket Nos. 50-293; 030-34378; and License Nos. DPR-35; 20-07626-04]****In the Matter of Entergy Nuclear Generation Company (Pilgrim Nuclear Power Station); Order Approving Transfer of Operating Authority and Conforming Amendments****I**

Entergy Nuclear Generation Company (ENGC or the licensee) is the holder of Facility Operating License No. DPR-35, which authorizes ENGC to possess, use, and operate the Pilgrim Nuclear Power Station (Pilgrim Station or the facility). ENGC is also the holder of Materials License No. 20-07626-04, which authorizes ENGC to possess, use, and transport certain materials in the form of contamination on reactor components. The facility is located in Plymouth County, Massachusetts.

II

By application dated August 24, 2001, the Commission was informed that ENGC proposes to enter into an Operating Agreement with Entergy Nuclear Operations, Incorporated (ENO), and transfer operating authority to ENO. The application was supplemented by submittals dated December 20, 2001, and February 15, 2002. ENO is a direct wholly owned subsidiary of Entergy Nuclear Holding Company #2 and an indirect wholly owned subsidiary of Entergy Corporation. Under the proposed transaction, ENO will be designated as a new facility licensee exclusively authorized to operate and maintain Pilgrim Station in accordance with the terms and conditions of the facility operating license. The transaction involves no change in ENGC's ownership of the facility. The licensee requested approval of the proposed transfer of operating authority under the Pilgrim Station facility operating license and transfer of the materials license to

ENO. The licensee also requested conforming amendments to reflect the transfer. The proposed amendments would essentially add ENO to the licenses and make other administrative changes to reflect that ENO is authorized to operate Pilgrim Station.

No physical changes to Pilgrim Station were proposed in the application. In addition, ENGC's entitlement to capacity and energy from Pilgrim Station will not be affected by the transfer of operating authority.

Approval of the transfer of operating authority under the operating license and the conforming license amendments was requested by ENGC pursuant to 10 CFR 50.80 and 10 CFR 50.90. The applicable provisions of the regulations governing the transfer and amendment of the materials license are 10 CFR 30.34, 30.38, 40.41, 40.44, 70.32, and 70.34. Notice of the application for approval and an opportunity for a hearing was published in the **Federal Register** on October 4, 2001 (66 FR 50694). No hearing requests or written comments were received.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. Under 10 CFR 30.34, 40.41, and 70.32, no byproduct, source, or special nuclear material license shall be transferred in violation of the provisions of the Atomic Energy Act of 1954, as amended, which require, inter alia, Commission consent. After reviewing the information in the application by ENGC and other information before the Commission, and relying upon the representations and agreements contained in the application, the NRC staff has determined that ENO is qualified to hold the operating authority under the facility operating license and to hold the materials license, and that the transfer of the operating authority under the facility operating license and the transfer of the materials license to ENO is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission, subject to the conditions set forth below. The NRC staff has further found that the application for the proposed license amendments complies with the standards and requirements of the Atomic Energy Act of 1954 (the Act), as amended, and the Commission's rules and regulations set forth in 10 CFR chapter 1; the facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission; there is reasonable assurance that the activities

authorized by the proposed license amendments can be conducted without endangering the health and safety of the public and that such activities will be conducted in compliance with the Commission's regulations; the issuance of the proposed license amendments will not be inimical to the common defense and security or the health and safety of the public; and the issuance of the proposed amendments will be in accordance with 10 CFR part 51 of the Commission's regulations and all applicable requirements have been satisfied. The foregoing findings are supported by a safety evaluation dated March 15, 2002.

III

Accordingly, pursuant to Sections 161b, 161i, and 184 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2201(b), 2201(i), and 2234, and 10 CFR 30.34, 40.41, 50.80, and 70.32, *It is hereby ordered* that the transfer of the licenses, as described herein, to ENO is approved, subject to the following conditions:

(1) ENO shall, prior to completion of the transfer of operating authority for Pilgrim Station, provide the Director of the Office of Nuclear Reactor Regulation satisfactory documentary evidence that ENO has obtained the appropriate amount of insurance required of licensees under 10 CFR Part 140 of the Commission's regulations.

(2) After receipt of all required regulatory approvals of the transfer of operating authority to ENO, ENG and ENO shall inform the Director of the Office of Nuclear Reactor Regulation in writing of such receipt within 5 business days and of the date of the closing of the transfer no later than 7 business days prior to the date of closing. If the transfer is not completed by March 30, 2003, this Order shall become null and void, provided, however, upon written application and for good cause shown, such date may in writing be extended.

It is further ordered that, consistent with 10 CFR 2.1315(b), license amendments that make changes, as indicated in Enclosure 2 to the cover letter forwarding this Order, to conform the licenses to reflect the subject transfers are approved. The amendments shall be issued and made effective at the time the proposed transfers are completed.

This Order is effective upon issuance.

For further details with respect to this action, see the initial application dated August 24, 2001, supplements dated December 20, 2001, and February 15, 2002, and the safety evaluation dated March 15, 2002, which are available for

public inspection at the Commission's Public Document Room, at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>.

Dated at Rockville, Maryland, this 15th day of March 2002.

For the Nuclear Regulatory Commission.

Samuel J. Collins,

Director, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards Joint Meeting of the ACRS Subcommittees on Materials and Metallurgy and on Plant Operations; Notice of Meeting

The ACRS Subcommittees on Materials and Metallurgy and on Plant Operations will hold a joint meeting on April 9, 2002, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows: *Tuesday, April 9, 2002—1:00 p.m. until the conclusion of business.*

The Subcommittees will hear discussions regarding issues related to the investigation of control rod drive mechanism (CRDM) penetration cracking and reactor pressure vessel head degradation. The purpose of this meeting is to gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittees, their consultants, and staff. Persons desiring to make oral statements should notify the Designated Federal Official named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittees, along with

any of their consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittees will then hear presentations by and hold discussions with representatives of the NRC staff, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, and the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor, can be obtained by contacting the Designated Federal Official, Ms. Maggalean W. Weston (telephone 301/415-3151) between 7:30 a.m. and 4:15 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes to the agenda, etc., that may have occurred.

Dated: March 18, 2002.

Sher Bahadur,

Associate Director for Technical Support, ACRS/ACNW.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards

Subcommittee Meeting on Planning and Procedures; Notice of Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on April 9, 2002, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed pursuant to 5 U.S.C. 552b(c) (2) and (6) to discuss organizational and personnel matters that relate solely to internal personnel rules and practices of ACRS, and information the release of which would constitute a clearly unwarranted invasion of personal privacy.

The agenda for the subject meeting shall be as follows:

Tuesday, April 9, 2002—11 a.m.—12:30 p.m.

The Subcommittee will discuss proposed ACRS activities and related matters. The purpose of this meeting is to gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as
