SUPPLEMENTARY INFORMATION:

Title: In-Home Food Safety Behaviors and Consumer Education: Web-Based Survey.

OMB Number: 0583–0178.

Expiration Date of Approval: 10/31/2023.

Type of Request: Revision of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*) and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, and properly labeled and packaged.

FSIS' Office of Public Affairs and Consumer Education (OPACE) develops consumer education programs concerning the safe handling,

preparation, and storage of meat, poultry, and egg products, to improve consumer food handling behaviors and minimize the incidence of foodborne illness. OPACE shares its messages through social media, the Meat and Poultry Hotline and Ask USDA (an online database of frequently asked food safety questions), the FSIS website, [FoodSafety.gov](https://www.foodsafety.gov), publications, and events. These messages are focused on the four core food safety behaviors: clean, separate, cook, and chill.

By testing planned and tailoring existing communication programs and materials, FSIS can ensure that it is effectively communicating with the public to improve consumer food safety practices. As part of ongoing activities by OPACE to develop and evaluate its public health education and communication activities, FSIS is requesting a revision of the approved information collection to conduct exploratory Web-based surveys of consumers. Findings from these surveys will provide information about how FSIS communication programs and materials affect consumer understanding of recommended safe food handling practices, as well as insight into how to effectively inform consumers about recommended practices. The findings will be used to enhance communication programs and materials to improve consumers' food safety behaviors and help prevent foodborne illness. Additionally, this research will provide useful information for tracking progress toward the goals outlined in the FSIS Strategic Plan.

FSIS contracted with an independent consulting firm to conduct two iterations of a web-based survey. The first survey was conducted in Fiscal Year (FY) 2019 and the second survey will be conducted in FY 2023. Each iteration of the exploratory survey is designed to collect information from 2,400 English-speaking adult members of a Web-enabled research panel maintained by a subcontractor. A pilot will be conducted before the survey to test the survey instrument and procedures.

The first iteration of the survey collected information on consumer use of and response to the Meat and Poultry Hotline, consumer awareness of The Food Safe Families campaign, and consumer behaviors for preparing raw meat and poultry products. The second

iteration of the survey will collect information on consumer awareness and understanding of Safe Handling Instructions and the USDA mark of inspection, food safety knowledge, food safety risk perceptions, preferences for receiving food safety information from FSIS, and perceptions of USDA.

Estimate of Burden: The total estimated burden for each iteration of

the survey is 978.2 hours, for a total burden of 1,956.4 hours. To achieve 80 completed surveys during the pretest, 146 panel members will be invited via email to take the survey. To achieve 2,400 completed surveys during the full-scale study, 4,400 panel members will be invited via email to take the survey. Therefore, a total of 4,546 (146 + 4,400)

will be invited to participate in both the pretest and the full-scale study for each iteration of the survey. The invitation email for the pretest and the full-scale survey is expected to take 2 minutes (0.03333 hour). Each survey is expected to take 20 minutes (0.33333 hours) to complete.
