

geographic or regional level, assisting communities with innovative approaches or management actions that can be sustained at the community level, and evaluating the approaches used. (50 points)

- Demonstrates knowledge of source water contamination prevention and ability to provide assistance to communities to effectively prevent contamination of their drinking water supplies and address their highest priority needs. (25 points)
- Describes approach to community involvement in source water contamination prevention planning. (20 points)
- Leverages other resources as part of the proposed approach. (5 points)

Application Procedure

Please submit five paper copies of a proposal that includes a narrative work plan and budget that does not exceed 10 single spaced pages, with one-inch margins and 12-point font, stapled in one corner with no binding. You may also include up to 15 pages of supplementary material, such as the resumes and summaries of prior work. Please also submit an electronic copy of the completed proposal to Debra Gutenson at "Gutenson.Debra@epa.gov." After the EPA review, the selected applicant will be asked to submit an SF-424.

Schedule of Activities

This is the estimated schedule of activities for review and award of proposals:

- Day 30: Proposals due 30 days after publication of **Federal Register** notice.
- Day 44: All applicants notified of government review status.
- Day 54: Selected applicant submits a SF-424.
- Day 64: Selected application(s) forwarded to EPA grants office.
- Day 94: Grants processing complete/ Congressional notifications.

Dated: May 15, 2001.

Cynthia C. Dougherty,

Director, Office of Ground Water and Drinking Water.

Notice of Meeting of the EPA's Children's Health Protection Advisory Committee (CHPAC)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the next meeting of the Children's Health Protection Advisory Committee (CHPAC) will be held June 13-15, 2001 at the Hotel Washington, Washington, DC. The CHPAC was created to advise the Environmental Protection Agency in the development of regulations, guidance and policies to address children's environmental health.

DATES: Wednesday, June 13, 2001, Science Work Group meeting only; plenary sessions Thursday, June 14 and Friday, June 15, 2001.

ADDRESSES: Hotel Washington, 515 15th Street, NW., Washington, DC.

Agenda Items: The meetings of the CHPAC are open to the public. The Science and Research Work Group will meet from 9 a.m. to 5 p.m. The plenary CHPAC will meet on Thursday, June 14 from 9 a.m. to 5:30 p.m., with a public comment period at 5 p.m., and on Friday, June 15 from 9 a.m. to 12:30 p.m.

The plenary session will open with introductions and a review of the agenda and objectives for the meeting. Agenda items include highlights of the Office of Children's Health Protection (OCHP) activities and a report from the Science Work Group, a discussion on retrospective and continuing priorities of the CHPAC, a panel on EPA national program initiatives in schools, a panel on case examples of EPA regional initiatives in schools, a discussion on next steps concerning EPA initiatives in schools, and an update on EPA's state initiatives on children's environmental health.

Notice of Availability for the State, Local, and Tribal Technical Assistance Document for Implementing the Revised Subpart E (Section 112(l)) Provisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The EPA is making available for the public a technical assistance document to aid State, Local, and Tribal air pollution control agencies (S/L/Ts) in implementing the revised 40 CFR part 63, subpart E provisions. Subpart E, which was originally promulgated in November 1993 and recently revised in September 2000, codifies section 112(l) of the Clean Air Act. Section 112(l) mandates EPA to provide guidance to S/L/Ts for delegating to them the authority to implement and enforce hazardous air pollutant (HAP) standards and requirements of section 112. Congress recognized that some S/L/Ts had developed their own HAP standards and requirements, and therefore, in addition, mandated that EPA develop provisions to allow S/L/Ts to substitute their rules, requirements, and programs, when demonstrated to be as stringent, in lieu of corresponding Federal section 112 requirements.

Prior to the revisions in September 2000 when S/L/Ts began using Subpart E to substitute their rules, requirements, and programs for section 112 HAP requirements and standards, they found the provisions to be inflexible and too burdensome. After meeting with S/L/Ts, EPA agreed to revisit the rule to make it more flexible. After many discussions and public meetings with stakeholders to understand their concerns and issues, providing a draft for their review, and conducting pilot projects with stakeholders in California, EPA proposed the revisions in January 1999. After reviewing the public comments received, EPA resolved to address all stakeholder concerns and provide even more flexibility and authorities to S/L/Ts in the final rulemaking. Because there was extensive revisions from the existing as compared to the final rule, EPA is publishing technical assistance
