Approval and Promulgation of Implementation Plans; Texas; Agreed Orders in the Beaumont/Port Arthur Ozone Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to take direct final action on revisions to the Texas State Implementation Plan (SIP). This rulemaking covers eight Agreed Orders with six companies in the Beaumont/Port Arthur (B/PA) ozone nonattainment area. We are approving the eight Agreed Orders between the State of Texas and the six companies in Southeast Texas as a strengthening of the Texas SIP. These Agreed Orders will contribute to the improvement in air quality in the B/PA nonattainment area and will continue to contribute to the maintenance of the ozone standard in the southeastern portion of the State of Texas. The EPA is proposing to approve this SIP in accordance with the requirements of the Federal Clean Air Act (the Act), sections 110 and 116.

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP Revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision and anticipates no adverse comment. The EPA has explained its reasons for this approval in the preamble to the direct final rule. If EPA receives no relevant adverse comments, the EPA will not take further action on this proposed rule. If the EPA receives relevant adverse comment, EPA will withdraw the direct final rule and it will not take effect. The EPA will address all public comments in a subsequent final rule based upon this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if we receive significant adverse comments on an amendment, paragraph or section of this rule and if that provision is independent of the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.
