

national objectives, adhered to its management plan approved by the Secretary of Commerce, and adhered to and implemented the terms of financial assistance under the Coastal Zone Management Act. When the evaluation is completed, NOAA's Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings.

You may participate and submit oral comments at the public meeting scheduled as follows:

Date: Wednesday, July 17, 2019.

Time: 6:00 p.m., local time.

Location: Castroville Branch Library, 11160 Speegle Street, Castroville, CA 95012.

Written comments must be received on or before Friday, July 26, 2019.

Authority: 16 U.S.C. § 1458, 15 CFR 921.40, 15 CFR 923.134.

(Federal Domestic Assistance Catalog 11.419 Coastal Zone Management Program Administration)

Dated: May 16, 2019.

Keelin Kuipers,

Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.

Draft Cook Inlet & Kodiak Marine Mammal Disaster Response Guidelines

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: NMFS, in an effort to increase preparedness for wildlife response under the Oil Pollution Act of 1990, has drafted guidelines for marine mammal response in disaster situations in Cook Inlet and Kodiak, Alaska entitled "Cook Inlet & Kodiak Marine Mammal Disaster Response Guidelines" (Guidelines). NMFS invites the public to comment on and/or provide additional information for NMFS to consider in finalizing the guidelines.

DATES: Comments must be submitted on or before June 24, 2019.

ADDRESSES: You may submit comments on this document, identified by NOAA-NMFS-2019-0038, by any one of the following methods;

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2019-0038, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments;

- **Mail:** Submit written comments to Sadie Wright, attention Ellen Sebastian, National Marine Fisheries Service, Protected Resources Division, Alaska Region, 709 West 9th Street, P.O. Box 21668, Juneau, AK 99802.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

Electronic copies of the draft Guidelines and associated Appendices may be obtained from <http://www.regulations.gov> or from the NMFS Alaska Region website at <https://www.fisheries.noaa.gov/alaska/marine-life-distress/alaska-marine-mammal-stranding-network>.

FOR FURTHER INFORMATION CONTACT:

Sadie Wright, (907) 586-7630 or Sadie.Wright@noaa.gov.

SUPPLEMENTARY INFORMATION: Marine mammal oil spill response and preparedness in the Cook Inlet and Kodiak region of Alaska presents many challenges including remote conditions; lack of infrastructure, equipment, and trained personnel; and large populations of marine mammals that may be impacted. Additionally, marine mammals are important subsistence and cultural resources for Alaska Native coastal communities, and response efforts must be cooperative with and sensitive to local communities. NMFS developed the Guidelines through stakeholder engagement to develop regionally specific and culturally sensitive response strategies during disasters that impact marine mammals.

NMFS sought input on communication and response protocols for carcass collection, de-oiling, tissue sampling, necropsies, and subsistence food issues through meetings with local leaders and responders in Kenai, Seward, Ninilchik, Seldovia, Port

Graham, Homer, Anchorage, Nanwalek, Kodiak, Ouzinkie, Port Lions, Larsen Bay, and teleconferences and email correspondence with outlying communities. These stakeholder meetings resulted in three key recommendations for the Guidelines:

- (1) Include a communication structure that is locally based and efficient;
- (2) prioritize response to address impacts to fish and associated public health and economy; and
- (3) address the lack of infrastructure, equipment, and trained personnel for response efforts.

These recommendations are addressed by the Guidelines in the following ways:

- (1) The local marine mammal stranding agreement holder or community-appointed organization(s) is the local lead, and communication protocols outline cooperative approaches between stakeholders;
- (2) All response protocols are congruent with food safety testing, and the Alaska state public health representative is part of the communication loop; and
- (3) Caches of equipment should be developed and stored in hub communities with smaller caches in outlying villages, to include modular and adaptive infrastructure for response activities.

Finally, the Guidelines provide decision-making tools regarding Cook Inlet beluga whale deterrence that will be useful to NMFS protocols, and to other responders to gain a better understanding of potential concerns in deterring this endangered population.

The draft Guidelines focus on marine mammal species under NMFS jurisdiction that occur in Cook Inlet and within the Kodiak archipelago. Different approaches may be appropriate for sea otters, which are managed by the U.S. Fish and Wildlife Service. Any response to marine mammals per these Guidelines should occur in coordination with NMFS through the Incident Command Structure, if put in place for an oil spill or other major incident. The draft Guidelines also focus primarily on marine mammal response during oil spills, but include considerations for response in a non-spill disaster situation such as a natural disaster (response typically under the Stafford Act) or a marine mammal Unusual Mortality Event.

Comments are invited on any aspect of the draft Guidelines. We are particularly interested in maintaining an efficient communication strategy for marine mammal disaster response in the Cook Inlet and Kodiak region, and seek suggestions to ensure the final

Guidelines provide that framework. In addition, NMFS appreciates specific suggestions on how to improve the clarity of the draft Guidelines.

Dated: May 21, 2019.

Catherine Marzin,

*Acting Director, Office of Protected Resources,
National Marine Fisheries Service.*

RIN 0648-XF801

Endangered Species; File No. 20610

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit modification.

SUMMARY: Notice is hereby given that David Portnoy, Ph.D., Texas A&M University, Corpus Christi, TX 78412, has requested a modification to scientific research Permit No. 20610.

DATES: Written, telefaxed, or email comments must be received on or before June 24, 2019.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 20610-01 from the list of available applications. These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. 20610 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on the application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Jennifer Skidmore or Erin Markin (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject modification to Permit No. 20610 is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 20610, issued on February 27, 2018 (83 FR 13731; March 30, 2018), authorizes the permit holder to import scalloped hammerhead (*Sphyrna lewini*) tissues for genetic analysis at Texas A&M University in Corpus Christi. The permit holder is requesting the permit be modified to add three additional countries from which to import samples: Honduras, Panama, and Cabo Verde. The permit holder is requesting to import samples from up to 50 animals per country. All other aspects of the permitted activities would not change. The permit would expire on February 28, 2023.

Dated: May 16, 2019.

Julia Marie Harrison,

*Chief, Permits and Conservation Division,
Office of Protected Resources, National
Marine Fisheries Service.*

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery Off the Southern Atlantic States, Dolphin and Wahoo Fishery Off the Atlantic States, and Coral and Coral Reefs Fishery in the South Atlantic; Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an application for an exempted fishing permit; request for comments.

SUMMARY: NMFS announces the receipt of an application for an exempted fishing permit (EFP) from Julie Johnson, on behalf of the North Carolina Aquariums at Roanoke Island, Pine Knoll Shores, Fort Fisher, and Jennette's Pier, North Carolina. If granted, the EFP would authorize North Carolina

Aquariums to collect, with certain conditions, various species of snapper-grouper, dolphin, and live rock in Federal waters along the North Carolina coast. The specimens would be used in educational exhibits displaying North Carolina native species at the aquariums.

DATES: Written comments must be received on or before June 24, 2019.

ADDRESSES: You may submit comments, identified by "NOAA-NMFS-2019-0051", by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2019-0051, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Frank Helies, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Frank Helies, 727-824-5305; email frank.helies@noaa.gov.

SUPPLEMENTARY INFORMATION: The EFP is requested under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and regulations at 50 CFR 600.745(b) concerning exempted fishing.

The North Carolina Aquariums have completed identical work under a previous EFP that was issued by NMFS on April 30, 2014, and recently expired on April 30, 2019. NMFS did not receive any public comments on the previous EFP notice of receipt of an application (79 FR 16301; March 25, 2014).

This action involves activities covered by regulations implementing the Fishery Management Plans (FMP) for the Snapper-Grouper Fishery of the South Atlantic Region, the Dolphin and Wahoo Fishery of the Atlantic Region, and the FMP for Coral, Coral Reefs and
