

III. Discussion

Section 17A(b)(3)(F) of the Act requires that the rules of a clearing agency be designed to assure the safeguarding of securities and funds which are in its custody or control or for which it is responsible.⁹ The Commission finds that OCC's proposed rule change is consistent with this requirement because the elevated net capital requirement, the loss limitation standards, the restriction on non-option stocks, and the concentration limitation have been designed to provide enhanced risk management of OCC risks resulting from clearing members carrying stock loan/stock borrow positions in margin-ineligible accounts.

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act and in particular section 17A of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the proposed rule change (File No. SR-OCC-2002-11) be and hereby is approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.¹⁰

Margaret H. McFarland,
Deputy Secretary.
