

In its initial submission, Complainant is also requested to identify the remedy sought, and Complainant and OUI are requested to submit proposed remedial orders for the Commission's consideration. Complainant is further requested to state the length of time the remedial order will be in place, to provide the HTSUS subheadings under which the accused products are imported, and to supply the identification information for all known importers of the products at issue in the investigation. Complainant is further requested to identify and explain, from the record, articles that it contends are "packaging therefor" the subject products, and thus potentially covered by the proposed remedial orders, if imported separately from the subject products. See 89 FR 57942–43. Failure to provide this information may result in waiver of any remedy directed to "packaging therefor" the subject products, in the event any violation may be found. The initial written submissions and proposed remedial orders must be filed no later than close of business on March 6, 2025. Reply submissions must be filed no later than the close of business on March 13, 2025. No further submissions on these issues will be permitted unless otherwise ordered by the Commission.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above pursuant to 19 CFR 210.4(f).
