

information from claimants in order to thoroughly examine and resolve tort claims against the agency. TSA receives approximately 834<sup>1</sup> tort claims per month arising from airport screening activities and other circumstances, including motor vehicle accidents and employee loss. The Federal Tort Claims Act (28 U.S.C. 1346(b), 1402(b), 2401(b), 2671–2680) is the authority under which the TSA Claims Management Branch adjudicates tort claims.

The data is collected whenever an individual believes s/he has experienced property loss or damage, a personal injury, or other damages due to the negligent or wrongful act or omission of a TSA employee, and decides to file a Federal tort claim against TSA. Submission of a claim is entirely voluntary and initiated by individuals. The claimants (or respondents) to this collection are typically the traveling public. Currently, claimants file a claim by submitting to TSA a Standard Form 95 (SF–95), which has been approved under OMB control number 1105–0008. Because TSA requires further clarifying information, claimants are asked to complete a Supplemental Information page added to the SF–95. These forms have been approved under OMB control number 1652–0039.

Claim instructions and forms are available through the TSA Web site at <http://www.tsa.gov>. Claimants must download these forms and mail or fax them to TSA. On the Supplemental Information page, claimants are asked to provide additional claim information including: (1) Email address, (2) airport, (3) location of incident within the airport, (4) complete travel itinerary, (5) whether baggage was delayed by airline, (6) why they believe TSA was negligent, (7) whether they used a third-party baggage service, (8) whether they were traveling under military orders, and (9) whether they submitted claims with the airlines or insurance companies.

If TSA determines payment is warranted, TSA sends the claimant a form requesting: (1) Claimant signature, (2) banking information (routing and account number), and (3) Social Security number (required by the U.S. Treasury for all Government payments to the public pursuant to 31 U.S.C. 3325).

*Number of Respondents:* 10,000.

*Estimated Annual Burden Hours:* An estimated 6,000 hours annually.

### 60-Day Notice of Submission of Proposed Information Collection for HUD Generic Clearance for Collection of Qualitative Feedback on Proposed New HUD Services or Products

**AGENCY:** Office of the General Counsel, HUD.

**ACTION:** Notice.

**SUMMARY:** As part of the Federal government-wide effort to streamline the process of seeking public feedback on service delivery, HUD is submitting to the Office of Management and Budget (OMB), for approval under the Paperwork Reduction Act, a Generic Clearance for the Collection of Qualitative Feedback on Proposed New Services or Products to seek information on new services and products that may be needed by HUD customers.

**DATES:** *Comments Due Date:* August 10, 2015.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name, or the FR number shown above, and should be sent to: Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW., Room 4176, Washington, DC 20410–5000; telephone 202–402–3400 (this is not a toll-free number) or email at [Colette.Pollard@hud.gov](mailto:Colette.Pollard@hud.gov) for a copy of the proposed forms or other available information. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877–8339.

**SUPPLEMENTARY INFORMATION:** Executive Order 12862, entitled “Setting Customer

Service Standards,” requires that Federal agencies provide the highest quality service to their customers by identifying needed services and seeking feedback on offered services. The information proposed to be collected under this notice is designed by HUD to garner qualitative feedback from HUD customers in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery.

In accordance with the Executive Order, the term “customer” means an individual or entity that is directly served by a department or agency. The term “qualitative feedback” refers to information that provides useful insights on perceptions and opinions, but does not constitute statistical surveys that yield quantitative results that can be generalized to the population of the study. The collections to be undertaken under this HUD proposed generic collection will allow for ongoing, collaborative, and actionable communications between HUD and its customers. The collections will also allow feedback to contribute directly to the improvement of HUD products and services, help identify where existing products and services may be lacking in some aspects, and whether there are additional products and services that could be offered by HUD. This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

#### A. Overview of Information Collection

*Title of Information Collection:* Generic Clearance for the Collection of Qualitative Feedback on Proposed New HUD Services or Products.

*OMB Approval Number:* Pending.

*Type of Request:* New.

*Form Number:* No specific form is currently contemplated.

*Description of the need for the information and proposed use:* For HUD to be successful in its mission, input from HUD customers and interested members of the public is essential. Such feedback takes many forms, including the solicitation of public comments through **Federal Register** notices, but also through surveys directly sent to HUD customers designed to gauge satisfaction with services and products offered by HUD. This generic clearance is designed to elicit input on possible new HUD products or services that may be helpful to HUD customers. An example of these types of services or products are the services offered by the National Resource Network that were initially determined best suited for cities with populations of 40,000 or

<sup>1</sup> In the 60 day notice, TSA estimated that it received approximately 1,000 tort claims per month arising from airport screening activities and other circumstances, including motor vehicle accidents and employee loss. Based on current data, the number has been adjusted to 834 tort claims.

more, and having, among other criteria, an annual average unemployment rate of 9 percent or more. (See <http://nationalresourcenetwork.org/en/solutions/rfa>.)

A generic collection, such as HUD is proposing through this notice, would allow HUD to survey its customers to determine whether HUD has identified appropriate eligibility criteria for new products and services under consideration, and correctly identified the categories of customers in need of these products or services. The areas of inquiry anticipated to be surveyed would be those seeking information about the specific customer being surveyed, for example, the public housing agency (PHA), State and local government, private housing provider, nonprofit organizations, or other organization participating in HUD

programs. Of the category or categories of program participants surveyed, the survey would inquire about: the demographics of the populations the customer serves; the type of HUD subsidized housing that is provided; energy, other utility, technological, or other infrastructure needs of the housing provided; the need for better access to community assets, such as transportation, financial services, educational services (schools, libraries or computer facilities), and sports and exercise facilities; the availability of any federal, other governmental, and local resources to address identified needs if these resources were made available; and any demonstration of community or governmental support to improve the quality of the housing provided. HUD anticipates the survey will solicit basic information regarding the customer and

current or anticipated needs for which brief responses will suffice. However, the survey would provide the opportunity for the customer to present additional information pertaining to these topics that customers may choose to note.

*Respondents (i.e. affected public):* PHAs, State and local governments, tribal nations, multifamily housing providers, nonprofit organizations, and other organizations that participate in HUD programs.

*Estimated Number of Respondents:* 1,000.

*Estimated Number of Responses Annually:* 100.

*Frequency of Response:* Once.

*Average Hours per Response:* 1 hour.

*Total Estimated Burdens:* 100 hours.

## B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The BIE is requesting renewal of OMB approval for the Student Transportation Form. The Student Transportation regulations in 25 CFR part 39, subpart G, contain the program eligibility and criteria that govern the allocation of transportation funds. Information collected from the schools will be used to determine the rate per mile. The information collection provides transportation mileage for Bureau-funded schools, which determines the allocation of transportation funds. This information is collected using a Web-
