

Titanium Sponge will allow the Administrator to sell additional quantities of the material to meet increased industry demand. The Committee is seeking public comments on the potential market impact of these proposed increases.

The quantities of Mica Splittings and Titanium Sponge listed in the proposed FY 2002 AMP are not sales target disposal quantities. They are only a statement of the proposed maximum quantities of these materials that may be disposed of in a particular fiscal year. The quantities of these two materials that will actually be offered for sale will depend on the market for the materials at the time of their offering as well as on the quantities of the materials approved for disposal by Congress.

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the proposed increased disposal quantities of Mica Splittings and Titanium Sponge. Although comments in response to this Notice must be received by August 8, 2001 to ensure full consideration by the Committee, interested parties are encouraged to submit comments and supporting information at any time thereafter to keep the Committee informed as to the market impact of the sales of these materials. Public comment is an important element of the Committee's market impact review process.

Anyone submitting business confidential information should clearly identify the business confidential portion of the submission and also provide a non-confidential submission that can be placed in the public file. The Committee will seek to protect such information to the extent permitted by law.

The records related to this Notice will be made accessible in accordance with the regulations published in part 4 of title 15 of the Code of Federal Regulations (15 C.F.R. 4.1 et seq.). Specifically, the Bureau of Export Administration's FOIA reading room is located on its web page, which can be found at <http://www.bxa.doc.gov>, and copies of the public comments received will be maintained at that location (see Freedom of Information Act (FOIA) heading). If requesters cannot access the web site, they may call (202) 482-2165 for assistance.

Dated: June 28, 2001.

Matthew S. Borman,

Deputy Assistant Secretary, Bureau of Export Administration.

Proposed Information Collection; Comment Request; Alaska Marine Sport Fishing Economic Survey

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506 (c)(2)(A)).

DATES: Written comments must be submitted on or before September 7, 2001.

SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of the survey is to collect information that will be used to conduct economic analyses of marine sport fisheries off Alaska. The Federal Government is responsible for the management of the Pacific halibut fishery, while the State of Alaska manages the salmon fisheries. The scope of the project includes both the Pacific halibut and the primary salmon fisheries (Chinook, Coho and Sockeye). The survey data will be used to estimate the economic value of a fishing day to anglers, and how catch rates and fishery regulations affects that value. The survey data will also be used to estimate how catch rates and fishery regulation affect the participation decisions of anglers. This type of economic data is currently not available for many areas and fisheries in Alaska. The information derived from the survey will be of use to fishery managers in their effort to evaluate the economic status of the marine sport fisheries off Alaska and the consequences of proposed regulations.

II. Method of Collection

The data will be collected through a mail survey with a telephone contact of non-respondents. Each respondent will receive an initial questionnaire. A second questionnaire will be mailed to those who have not responded within 3 weeks. Those who do not respond to the second mailing will be contacted by telephone to ask them to complete the questionnaire and return it by mail. The survey instrument will be developed using focus groups to test questions and survey format.

III. Data

OMB Number: None.

Form Number: None.
