DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Water Act

On September 18, 2014, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Northern District of California in the lawsuit entitled *United States of America v. Sims Group USA Corporation d/b/a Sims Metal Management*, Civil Action No. 3:14–CV–4209.

The United States of America brought claims on behalf of the United States Environmental Protection Agency under Sections 301 and 402 of the Clean Water Act, 33 U.S.C. 1251, *et seq.*, against Sims Group USA Corporation d/b/a Sims Metal Management.

The United States alleges that the violations arose from Sims' industrial activities at the Port of Redwood City in Redwood City, California. The United States alleges that Sims allowed metal and other material to fall from its ship-loading conveyor directly into Redwood Creek. In addition, the Complaint alleges that Sims violated several requirements of its General Permit authorization for stormwater discharges associated with industrial activity. Sims encapsulated its ship-loading conveyor and came into compliance with the CWA in March 2012. It came into compliance with the General Permit in April 2013.

The proposed Consent Decree would require Sims to pay \$189,500 in civil penalties for its violations, and to study and remediate contaminated sediments near the conveyor.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States of America v. Sims Group USA Corporation d/b/a Sims Metal Management*, D.J. Ref. No. 90–5–1–1–10706. All comments must be

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for an information collection that provides the public a means to request for assistance from the EBSA. The EBSA assists employee benefit plan participants in understanding their rights, responsibilities, and benefits under employee benefit law and intervenes informally on participants' behalf with the plan sponsor in order to help them obtain health and retirement benefits that may have been inappropriately denied. Such informal intervention can avert the necessity for a formal investigation or a civil action. The EBSA maintains a toll-free telephone number through which inquirers can reach Benefits Advisors in ten Regional Offices. The EBSA has also made a request for assistance form available on its Web site for those wishing to obtain assistance in this manner.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection

of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210–0146.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 21, 2014 (79 FR 29208).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1210–0146. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
