II. What Action is the Agency Taking?

EPA is printing a summary of a pesticide petition received under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the establishment of a regulation in 40 CFR part 180 for residues of the antimicrobial poly(hexamethyleneguanide) hydrochloride (PHMB) in or on all food commodities when the residues are the result of the lawful application of a food contact surface sanitizer containing PHMB at 550 ppm. EPA has determined that the pesticide petition contains data or information regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petition. Additional data may be needed before EPA rules on the pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition prepared by the petitioner is available on EPA's Electronic Docket at <http://www.regulations.gov/>. To locate this information on the home page of EPA's Electronic Docket, select "Quick Search" and type the OPP docket ID number "EPA-HQ-OPP-2005-0268" in the search field. Once the search has located the docket, clicking on the "Docket ID" will bring up a list of all

documents in the docket for the pesticide including the petition summary.

Exemption from the Requirement of a Tolerance

PP 5F6975. Arch Chemicals, Inc., 1955 Lake Park Drive, Suite 100, Smyrna, GA 30080, proposes to establish an exemption from the requirement of a tolerance for residues of the antimicrobial PHMB in or on all food commodities when the residues are the result of the lawful application of a food contact surface sanitizer containing PHMB at 550 ppm. Because this petition is a request for an exemption from the requirement of a tolerance, an analytical method is not required at this time.
