■ 3. Amend § 52.2497 by revising paragraph (a) to read as follows:

§ 52.2497 Significant deterioration of air quality.

(a) The requirements of sections 160 through 165 of the Clean Air Act are not fully met because the plan does not include approvable procedures for preventing the significant deterioration of air quality from:

(1) Facilities with carbon dioxide (CO₂) emissions from the industrial combustion of biomass in the following circumstances:

(i) Where a new major stationary source or major modification would be subject to Prevention of Significant Deterioration (PSD) requirements for greenhouse gases (GHGs) under 40 CFR 52.21 but would not be subject to PSD under the state implementation plan (SIP) because CO₂ emissions from the industrial combustion of biomass are excluded from consideration as GHGs as a matter of state law under RCW 70.235.020(3); or

(ii) Where a new major stationary source or major modification is subject to PSD for GHGs under both the Washington SIP and the FIP, but CO₂ emissions from the industrial combustion of biomass are excluded from consideration in the Ecology PSD permitting process because of the exclusion in RCW 70.235.020(3);

(2) Indian reservations in Washington, except for non-trust land within the exterior boundaries of the Puyallup Indian Reservation (also known as the 1873 Survey Area) as provided in the Puyallup Tribe of Indians Settlement Act of 1989, 25 U.S.C. 1773, and any other area where the EPA or an Indian

tribe has demonstrated that a tribe has jurisdiction.

(3) Sources subject to PSD permits issued by the EPA prior to August 7, 1977, but only with respect to the general administration of any such permits still in effect (e.g., modifications, amendments, or revisions of any nature).

■ 4. Amend § 52.2498 by revising paragraph (a) to read as follows:

§ 52.2498 Visibility protection.

(a) The requirements of section 169A of the Clean Air Act are not fully met because the plan does not include approvable procedures for visibility new source review for:

(1) Sources subject to the jurisdiction of local air authorities (except Benton Clean Air Agency and Southwest Clean Air Agency);

(2) Indian reservations in Washington except for non-trust land within the exterior boundaries of the Puyallup Indian Reservation (also known as the 1873 Survey Area) as provided in the Puyallup Tribe of Indians Settlement Act of 1989, 25 U.S.C. 1773, and any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction.

SUPPLEMENTARY INFORMATION:

I. Background

The SIP is a living document which a state revises as necessary to address its unique air pollution problems. Therefore, EPA, from time to time, must take action on SIP revisions containing new and/or revised regulations as being part of the SIP. On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference federally-approved SIPs, as a result of consultations between EPA and the Office of the Federal Register (OFR). The description of the revised SIP document, IBR procedures and "Identification of plan" format are discussed in further detail in the May 22, 1997 **Federal Register** document. On April 21, 2000 (65 FR 21315), EPA published a document in the **Federal Register** beginning the new IBR procedure for Virginia. On September 8, 2004 (69 FR 54216), November 3, 2005 (70 FR 66769), July 16, 2007 (72 FR 38920), July 13, 2009 (74 FR 33332) as corrected on December 18, 2009 (74 FR 67077), and November 21, 2011 (76 FR 71881), EPA published updates to the IBR material for Virginia.

II. EPA Action

In this action, EPA is announcing the update to the IBR material as of July 1, 2016 and revising the text within 40 CFR 52.2420(b).

EPA is revising our 40 CFR part 52 “Identification of Plan” for the Commonwealth of Virginia regarding incorporation by reference, section 52.2420(b). EPA is revising section 52.2420(b)(1) to clarify that all SIP revisions listed in paragraphs (c) and (d), regardless of inclusion in the most recent “update to the SIP compilation,” are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking in which EPA approved the SIP revision, consistent with following our “Approval and Promulgations of Air Quality Implementation Plans; Revised Format of 40 CFR part 52 for Materials Being Incorporated by Reference,” effective May 22, 1997 (62 FR 27968). EPA is revising section 52.2420(b)(2) to clarify references to other portions of paragraph (b) with subparagraph (b)(2). EPA is revising section (b)(3) to update address and contact information. In the table for paragraph 40 CFR 52.2420(c), EPA is:

1. Reorganizing the entries for section 5–10–20 (Definitions- Terms Defined).

2. Revising the CFR to include previously approved sections for 5–30–80 (Lead) and 5–160–10 (General).

3. Revising the entries for sections 5–40–7410, 5–130–10, 5–170–210 and 5–220–60.

4. Correcting a typographical error in the title of Article 48, Emission Standards for Mobile Equipment Repair and Refinishing (Rule 4–48).

5. Removing duplicate and/or additional outdated entries for sections 5–80–2020 and 5–85–50.

In the table for paragraph 52.2420(d), EPA is correcting incorrect **Federal Register** page citations in the “EPA approval date” column for the following entries: Philip Morris, Inc.—Blended Leaf Facility; Philip Morris, Inc.—Park 500 Facility; Philip Morris, Inc.—Richmond Manufacturing Center; Virginia Electric and Power Co.—Innsbrook Technical Center Hercules, Inc.—Aqualon Division; City of Hopewell—Regional Wastewater Treatment Facility; Allied Signal, Inc.—Hopewell Plant; Allied Signal, Inc.—Chesterfield Plant; Bear Island Paper Co. L.P.; Stone Container Corp.—Hopewell Mill; E.I. Dupont de Nemours and Co.—Spruance Plant; and ICI Americas Inc.—Films Division—Hopewell Site. EPA is also reinserting a previously approved entry for Kraft Foods Global Inc., April 15, 2008 (73 FR 20175) to this paragraph.

EPA is also splitting the existing § 52.2420(e) table (EPA-approved non-regulatory and quasi-regulatory material) into two tables designated as § 52.2420(e)(1) (Non-regulatory material) and § 52.2420(e)(2) (Documents incorporated by reference in regulation 9VAC5–20–21). While there are format changes in the column titles due to this table organization, the substantive text of the existing entries and any additional entries which have been approved since the last VA IBR update do not change.

III. Good Cause Exemption

EPA has determined that this rule falls under the “good cause” exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding “good cause,” authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). This rule simply codifies provisions which are already in effect as a matter of law in federal and approved state programs. Under section 553 of the APA, an agency may find good cause where procedures are “impractical, unnecessary, or contrary to the public interest.” Public comment is “unnecessary” and “contrary to the public interest” since the codification only reflects existing law. Immediate notice in the CFR benefits the public by removing outdated citations and incorrect table entries.

IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of previously EPA approved regulations promulgated by the Commonwealth of Virginia and federally effective prior to July 1, 2016. Therefore, these materials have been approved by EPA for inclusion in the SIP, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA’s approval, and will be incorporated by reference by the Director of the Federal Register in the next update to the SIP compilation.¹ The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and/or at the EPA Region III Office

¹ 62 FR 27968 (May 22, 1997).

(please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

A. General Requirements

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
 - does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
 - does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
 - does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, the SIP is not approved to apply on any Indian reservation land as defined in 18 U.S.C. 1151 or in any

other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

EPA has also determined that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the Virginia SIP compilations had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for this "Identification of plan" update action for Virginia.
