II. Background Information and Regulatory History

The U.S. Navy informed the Coast Guard that the Commissioning of the USS CARL M. LEVIN (DDG 120) will be held on June 24, 2023, in Baltimore Harbor, MD. The commissioning will be in close proximity to navigable waterways within the Captain of the Port, Maryland-National Capital Region’s Area of Responsibility, as set forth in 33 CFR 3.25–15. On May 30, 2023, the U. S. Navy requested that a security zone be established to be in effect before, during and after the commissioning ceremony.

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable and contrary to public interest to delay the effective date of this rule. Immediate action is needed to mitigate potential terrorist acts and to enhance public and maritime safety and security. The Coast Guard is unable to publish an NPRM in time to publish a final rule due to the short time period between May 30, 2023, when the event planners notified the Coast Guard of the security posture for the event, and June 24, 2023, when the security zone must be in effect. Delaying the effective date to publish an NPRM would be contrary to the security zone’s intended objectives of mitigating potential terrorist acts and enhancing public and maritime safety and security. It is therefore impracticable to publish an NPRM.

Under 5 U.S.C. 553(d)(3), the Coast Guard also finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable because immediate action to restrict vessel traffic is needed to protect life, property and the environment, and delaying the effective date would frustrate the security zone’s intended objectives of mitigating potential terrorist acts and enhancing public and maritime safety and security when the event takes place.

III. Legal Authority and Need for Rule

The Coast Guard may issue security zone regulations under authority in 46 U.S.C. 70051 and 70124. The Captain of the Port, Maryland-National Capital Region (COTP) has determined that the commissioning of a U.S. Naval Warship presents a potential target for terrorist attack, sabotage, or other subversive acts, accidents, or other causes of similar nature. This rule is needed to protect distinguished guests and attendants of the commissioning ceremony of the USS CARL M. LEVIN (DDG 120) as well as personnel in and around the commissioning site, navigable waterways, and waterfront facilities.

IV. Discussion of the Rule

This rule establishes a security zone from 8 a.m. until 1 p.m. on June 24, 2023. The security zone will cover all navigable waters from North Locust Point Marine Terminal across West Channel Harbor to the yacht basin Oasis Marina in Northwest Harbor, MD. The duration of the zone is intended to protect personnel in and around the commissioning site, navigable waterways, and waterfront facilities. No vessel or person will be permitted to enter the security zone without obtaining permission from the COTP or a designated representative.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This rule has not been designated a “significant regulatory action,” under section 3(f) of Executive Order 12866, as amended by Executive Order 14094 (Modernizing Regulatory Review). Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size, location, and limited duration of the security zone. This zone impacts a small, designated area of the Northwest Harbor for 5 hours.
