RIN 0648–AX38

Fisheries in the Western Pacific; Pelagic Fisheries; Vessel Identification Requirements

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes to revise identification requirements for U.S. vessels that fish for pelagic management unit species on the high seas of the central and western Pacific. The new measures would require vessels to display their International Telecommunication Union Radio Call Sign (IRCS). If an IRCS has not been assigned to the vessel, the vessel would be required to display its official number, preceded by the characters “USA ”. The intent of this proposed rule is to make existing Federal vessel identification requirements conform with other regulations being proposed to implement international requirements.

DATES: Comments on the proposed rule must be received by August 3, 2009.

ADDRESSES: Comments on this proposed rule, identified by 0648–AX38, may be sent to either of the following addresses:

- Electronic Submission: Submit all electronic public comments via the Federal e–Rulemaking Portal www.regulations.gov; or
- Mail: William L. Robinson, Regional Administrator, NMFS, Pacific Islands Region (PIR), 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI 96814–4700.

All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender may be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information.
