generated from the Payroll Savings
Participation System and the Call and
Progress Summary System. Records are
used to develop and focus marketing
efforts. Also included are electronic
copies of documents created using
electronic mail and word processing.
Recordkeeping copies of Action
Bulletins and Printed Promotional
Materials are proposed for permanent
retention.

12. Department of the Treasury, Bureau of the Public Debt, (N1–53–02–14, 6 items, 6 temporary items). Electronic records and related output reports used in connection with the printing, tracking, and distribution of agency forms.

13. Central Intelligence Agency, Directorate of Intelligence (N1–263–02–3, 7 items, 7 temporary items). Inputs, master data, outputs, backup tapes, and documentation for the Trade Data Aggregation and Recovery System, an electronic system containing international import and export data.

- 14. Executive Office of the President, Office of Telecommunications Policy (N1–429–02–3, 3 items, 1 temporary item). Reports prepared by study groups of the International Telegraph and Telephone Consultative Committee, 1968–1972. Proposed for permanent retention are files of the Assistant Director of the Office of Telecommunications Policy, 1971–1972, and subject files pertaining to communications matters, 1952–1970.
- 15. Farm Credit Administration,
  Agency-wide (N1–103–02–1, 4 items, 4
  temporary items). Administrative
  subject files and records that document
  the Farm Credit Banks Funding
  Corporation's funding approval process.
  Records include correspondence and
  reports, offering circulars, term sheets,
  and sale confirmations. Also included
  are electronic copies of records created
  using electronic mail and word
  processing.
- 16. Office of Navajo and Hopi Indian Relocation, Executive Direction (N1–220–02–18, 3 items, 2 temporary items). Electronic copies of records created using electronic mail and word processing that relate to legislative history matters. Recordkeeping copies of these files are proposed for permanent retention.
- 17. Office of Navajo and Hopi Indian Relocation, Relocation Operations (N1–220–02–19, 7 items, 4 temporary items). Electronic copies of records created using electronic mail and word processing that relate to such matters as accommodation and stipulated settlement agreements, Hopi partitioned land reports, and residents on Hopi partitioned land who relinquished their

interests in accommodation agreements. Recordkeeping copies of these files are proposed for permanent retention.

18. Tennessee Valley Authority,
Transmission Power Supply (N1–142–
01–4, 5 items, 5 temporary items). Paper
and electronic surveying records
including field notebooks, computation
sheets, estimates, maps, reports,
correspondence, and supporting
materials. Also included are electronic
copies of records created using word
processing and electronic mail.

Dated: October 18, 2002.

## NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission, new, revision, or extension: Revision.

1. The title of the information collection: Proposed Rule, 10 CFR part 50.48, "Fire Protection, Voluntary Adoption of NFPA 805 Fire Protection Requirements".

3. *The form number if applicable:* Not applicable.

4. How often the collection is required: When reactor licensees choose to adopt NFPA 805 fire protection requirements (once), or when requesting NRC approval for use of alternative methods or analytical approaches under NFPA 805 (as needed).

5. Who will be required or asked to report: Current light water reactor licensees choosing to adopt NFPA 805 fire protection requirements.

6. An estimate of the number of annual responses: 6 (4 reactor plants adopting NFPA 805 fire protection requirements, and 2 reactor plants requesting to use alternative methods or analytical approaches).

7. The estimated number of annual respondents: Four licensees adopting

NFPA 805 fire protection requirements, and two licensees requesting to use alternative methods or analytical approaches.

8. An estimate of the net total number of hours needed to complete the requirement or request (annual total for all plants): 3156 hours of reporting per year, and 180,800 hours of recordkeeping per year (offset by reductions in exemption request processing and cost reductions associated with reduced maintenance, operating and training costs for fire protection features which can be removed from the reactor plants.)

9. An indication of whether section 3507(d), Pub. L. 104–13 applies: Applicable.

10. Abstract: The proposed rule would modify 10 CFR 50.48 to permit existing reactor licensees to voluntarily adopt a set of fire protection requirements contained in the National Fire Protection Association (NFPA) Standard 805, "Performance-Based Standard for Fire Protection for Light Water Reactor Electric Generating Plants, 2001 Edition" (NFPA 805).

Submit, by November 25, 2002, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of

information technology? A copy of the NRC's submittal to OMB may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. The proposed rule "Revision of 10 CFR 50.48 to Permit Light-water Reactors to Voluntarily Adopt National Fire Protection Association (NFPA) Standard 805, 'Performance-based Standard for Fire Protection for Lightwater Reactor Electric Generating Plants, 2001 Edition' as an Alternative Set of Risk-informed and performancebased Fire Protection Requirements" is or has been published in the Federal Register within several days of the publication date of this Federal Register Notice. The OMB clearance package and rule are available at the NRC worldwide Web site: http://www.nrc.gov/publicinvolve/doc-comment/omb/index.html for 60 days after the signature date of this notice and are also available at the

rule forum site, http://ruleforum.llnl.gov.

Comments and questions should be directed to the OMB reviewer by November 25, 2002: Bryon Allen, Office of Information and Regulatory Affairs (3150–0011), NEOB–10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395–3087.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415–7233.

Dated at Rockville, Maryland, this 17th day of October 2002.

For the Nuclear Regulatory Commission. **Brenda Jo. Shelton**,

NRC Clearance Officer, Office of the Chief Information Officer.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-395]

South Carolina Electric and Gas Company, Virgil C. Summer Nuclear Station, Unit 1; Notice of Intent to Prepare an Environmental Impact Statement and Conduct Scoping Process

South Carolina Electric and Gas Company (SCE&G) has submitted an application for renewal of operating license NPF-12 for an additional 20 years of operation at Virgil C. Summer Nuclear Station (V.C. Summer), Unit 1. V.C. Summer is located in the southeastern corner of rural Fairfield County, South Carolina, approximately 26 miles northwest of Columbia, South Carolina. The application for renewal was submitted by letter dated August 6, 2002, pursuant to 10 CFR part 54. A notice of receipt of application, including the environmental report (ER), was published in the **Federal** Register on September 3, 2002 (67 FR 56316). A notice of acceptance for docketing of the application for renewal of the facility operating license was published in the Federal Register on October 10, 2002 (67 FR 62272). The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) will be preparing an environmental impact statement (EIS) in support of the review of the license renewal application and to provide the public an opportunity to participate in the environmental scoping process as defined in 10 CFR 51.29.

In accordance with 10 CFR 54.23 and 10 CFR 51.53(c), SCE&G submitted the ER as part of the application. The ER

was prepared pursuant to 10 CFR part 51 and is available for public inspection at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at http://www.nrc.gov/reading-rm/ adams.html, which provides access through the NRC's Public Electronic Reading Room (PERR). Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff at 1–800–397–4209, (301) 415–4737, or by email to pdr@nrc.gov. The application may also be viewed on the Internet at http://www.nrc.gov/reactors/operating/ licensing/renewal/applications/ summer.html. In addition, the Thomas Cooper Library, located at 1322 Greene Street, Columbia, South Carolina 29208, and the Fairfield County Library, located at 300 Washington Street, Winnsboro, South Carolina 29180, have agreed to make the ER available for public inspection.

This notice advises the public that the NRC intends to gather the information necessary to prepare a plant-specific supplement to the Commission's "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants," (NUREG-1437) in support of the review of the application for renewal of the V.C. Summer operating license for an additional 20 years. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources. Title 10 of the CFR, section 10 CFR 51.95 requires that the NRC prepare a supplement to the GEIS in connection with the renewal of an operating license. This notice is being published in accordance with the National Environmental Policy Act (NEPA) and the NRC's regulations found in 10 CFR part 51.

The NRC will first conduct a scoping process for the supplement to the GEIS and, as soon as practicable thereafter, will prepare a draft supplement to the GEIS for public comment. Participation in this scoping process by members of the public and local, State, and Federal government agencies is encouraged. The scoping process for the supplement to the GEIS will be used to accomplish the following:

a. Define the proposed action which is to be the subject of the supplement to the GEIS.

b. Determine the scope of the supplement to the GEIS and identify the

significant issues to be analyzed in depth.

c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant.

d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of the scope of the supplement to the GEIS being considered.

e. Identify other environmental review and consultation requirements related to the proposed action.

f. Indicate the relationship between the timing of the preparation of environmental analyses and the Commission's tentative planning and decision-making schedule.

g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the supplement to the GEIS to the NRC and any cooperating agencies.

h. Describe how the supplement to the GEIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in the scoping process:

a. The applicant, SCE&G.
b. Any Federal agency that has
jurisdiction by law or special expertise
with respect to any environmental
impact involved, or that is authorized to
develop and enforce relevant
environmental standards.

c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards.

d. Any affected Indian tribe.

e. Any person who requests or has requested an opportunity to participate in the scoping process.

f. Any person who intends to petition for leave to intervene.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has decided to hold a public meeting for the V.C. Summer license renewal supplement to the GEIS. The scoping meeting will be held at the White Hall Fellowship Room at the White Hall A.M.E. Church located at 8594 State Highway 215 South, Jenkinsville, South Carolina, on Wednesday, December 11, 2002. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m. The second session will convene at 7:00 p.m. with a repeat of the overview portions of the meeting and will continue until 10:00 p.m. Both
