

Signing Authority

This document of the Department of Energy was signed on March 31, 2023, by Virgil G. Hobbs III, Administrator for Southeastern Power Administration, pursuant to delegated authority from the Secretary of Energy. That document, with the original signature and date, is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 4, 2023.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL 10813-01-OAR]

Transfer of Information Claimed as Confidential Business Information to the United States Department of Energy/Argonne National Laboratory

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that information submitted to EPA's Office of Air and Radiation (OAR) pursuant to the Clean Air Act (CAA), including information that may have been claimed as Confidential Business Information (CBI) by the submitter, will be transferred to Argonne National Laboratory (ANL)/Department of Energy (DOE). ANL/DOE have been awarded a contract to perform work for OAR, and access to this information will enable ANL/DOE to fulfill the obligations of the contract.

DATES: Access by ANL/DOE to material, including CBI, discussed in this Notice, is ongoing and expected to continue beginning April 17, 2023.

FOR FURTHER INFORMATION CONTACT:

Aaron Sobel, Transportation and Climate Division, Office of Transportation and Air Quality (OTAQ), Office of Air and Radiation (OAR) (5512S); telephone number: 202-564-0543; fax number: 202-343-2801; email address: sobel.aaron@epa.gov.

SUPPLEMENTARY INFORMATION: The Environmental Protection Agency (EPA) is providing notice of disclosure pursuant to 40 CFR 2.209(c). Under Contract No. DW-089-92568801-0, ANL/DOE will perform lifecycle analysis modeling with the Greenhouse gases, Regulated Emissions, and Energy use in Technologies (GREET) Model.

OTAQ has determined that access by ANL/DOE to information is necessary for the performance of this contract. EPA conducts lifecycle greenhouse gas analysis of biofuel pathways in support of implementing the Renewable Fuel Standards (RFS) program under section 211(o) of the Clean Air Act. This includes reviewing petitions submitted pursuant to 40 CFR 80.1416, some of which include data claimed as confidential business information. To evaluate these pathway petitions, EPA intends to provide data critical to evaluating the lifecycle greenhouse gas emissions associated with these biofuel pathway petitions to ANL/DOE. Examples of the type of information to be shared include agricultural practice data such as crop yields and nutrient input data, anticipated biofuel facility operational data such as energy sources and amounts used for processing feedstocks into fuels, and detailed descriptions of these processes to help practitioners understand the overall biofuel pathways being proposed by stakeholders. Some of this information may be entitled to confidential treatment. The information has been submitted to EPA under section 211(o) of the Clean Air Act.

Records of information provided to ANL/DOE will be maintained by EPA Project Officers for this contract. All information supplied to ANL/DOE by EPA for use in connection with this contract will be returned to EPA when ANL/DOE have completed their work.

Dated: April 3, 2023.

Karl Simon,

Director, Transportation and Climate Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2017-0751; FRL-10860-01-OCSPJ]

Pesticide Registration Review; Decisions and Case Closures for Several Pesticides; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's the closure of the registration review cases for irgarol, oregano oil, and tagetes oils (formerly flower oils case), because the last U.S. registrations for these pesticides have been canceled.

ADDRESSES: The docket for this action, identified under docket identification (ID) number EPA-HQ-OPP-2017-0751, is available online at <https://www.regulations.gov>. Additional instructions on visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

For pesticide specific information, contact: The Chemical Review Manager for the pesticide of interest identified in Table 1 in Unit IV.

For general information on the registration review program, contact: Melanie Biscoe, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; email address: biscoe.melanie@epa.gov; phone, (202) 566-0701.

SUPPLEMENTARY INFORMATION:**I. General Information***Does this action apply to me?*

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the pesticide specific contact person listed under **FOR FURTHER INFORMATION CONTACT:** *For pesticide specific information, contact:* The Chemical Review Manager for the pesticide of interest identified in Table 1 in Unit IV.

II. Background

Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed case closures for
