NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

[NRC–2011–0087]

RIN 3150–AI96

Non-Power Reactor License Renewal

AGENCY: Nuclear Regulatory Commission.

ACTION: Final regulatory basis; availability of rulemaking documents.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC or the Commission) is publishing the final regulatory basis for rulemaking to streamline non-power reactor license renewal. This final regulatory basis incorporates input from the public, licensees, certificate holders, and other stakeholders provided during the public comment period that ended July 31, 2012. This regulatory basis provides the technical basis to support proceeding with rulemaking to streamline and enhance the Research and Test Reactor (RTR) License Renewal Process. This contemplated rulemaking also recommends conforming changes to address technical issues in existing non-power reactor regulations. The NRC has developed a final technical basis for this proposed rulemaking that describes the agency's overall objectives, conceptual approaches, potential solutions, integration with agency strategic goals, and related technical and regulatory clarity issues.

II. Background

The Commission provided direction presented in the Staff Requirements Memorandum, SECY–08–0161 (ADAMS Accession No. ML082550140) that directed the staff to develop and submit a long-term plan for an enhanced RTR license renewal process for Commission review. “The plan should include, but not be limited to, developing a basis for redefining the scope of the process, as well as a recommendation regarding the need for rulemaking and guidance development. The staff should submit to the Commission a resource request, including staffing and contract funding needs, to formalize the review process changes and establish a stable and predictable regulatory regime for RTRs. This long term plan should consider elements of the generic analysis approach, generic siting analysis, and the extended license term * * *.”

III. Public Comments on Draft Regulatory Basis

The NRC published a draft regulatory basis on June 29, 2012 (77 FR 38742), for comment from the public, licensees, certificate holders, and other stakeholders. The public comment period that ended July 31, 2012. The NRC received two comment letters: one from the University of Florida and one from the National Institute of Standards and Technology, in electronic form via
