DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Water Act

On August 26, 2015, the Department of Justice lodged a proposed consent decree with the United States District Court for the District of Maine in the lawsuit entitled *United States of America and State of Maine v. City of Bangor, Maine*, Civil Action No. 1:15-cv-00350-NT.

In the Complaint, the United States, on behalf of the U.S. Environmental Protection Agency, and the State of Maine, on behalf of the Maine Department of Environmental Protection, allege that the City of Bangor (the "City") violated the Clean Water Act ("CWA"), 33 U.S.C. 1251, *et seq.*, and applicable regulations relating to the City's failure to comply with its National Pollution Discharge System and small municipal separate storm sewer system permits relating to the sewer system owned and operated by the City. The consent decree requires the City to undertake various measures to study and correct the problems causing the permit violations in order to achieve compliance with the CWA and applicable regulations.

The publication of this notice opens a period for public comment on the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States of America and State of Maine v. City of Bangor, Maine*, D.J. Ref.

No. 90-5-1-1-2883/1. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

[OJP (NIJ) Docket No. 1693]

Offender Monitoring Analytics Market Survey

AGENCY: National Institute of Justice, Justice.

ACTION: Notice of request for information.

SUMMARY: The National Institute of Justice (NIJ) is soliciting information in support of the upcoming National Criminal Justice Technology Research, Test, and Evaluation Center (NIJ RT&E Center) "Market Survey of Offender Monitoring Analytics (OMA) Technologies." This market survey, which will address offender monitoring in community settings, will be published by NIJ to assist agencies in their assessment of relevant information prior to making purchasing decisions on commercially-available systems being marketed for use by criminal justice professionals. The NIJ RT&E Center also invites comments with regard to the

market survey itself, including which categories of information are appropriate for comparison, as well as promotional material (*e.g.*, slick sheets) and print-quality images in electronic format.

DATES: Responses to this request will be accepted through 11:59 p.m. Eastern Daylight Time on September 25, 2015.

ADDRESSES: Responses to this request may be submitted electronically in the body of or as an attachment to an email sent to administrator@nijrtcenter.org with the recommended subject line "OMA Federal Register Response". Questions and responses may also be sent by mail (please allow additional time for processing) to the following address: National Criminal Justice Technology Research, Test and Evaluation Center, ATTN: OMA Federal Register Response, Johns Hopkins University Applied Physics Laboratory, 11100 Johns Hopkins Road, Mail Stop 17-N444, Laurel, MD 20723-6099.

FOR FURTHER INFORMATION CONTACT: For more information on this request, please contact Hal Heaton (NIJ RT&E Center) by telephone at 443-778-5025 or administrator@nijrtcenter.org. For more information on the NIJ RT&E Center, visit <http://nij.gov/funding/awards/Pages/award-detail.aspx?award=2013-MU-CX-K111> and view the description or contact Jack Harne (NIJ) by telephone at 202-616-2911 or at Jack.Harne@usdoj.gov. Please note that these are not toll-free telephone numbers.

SUPPLEMENTARY INFORMATION:

Information Sought: The NIJ RT&E Center seeks input to its upcoming "Market Survey of Offender Monitoring Analytics (OMA) Technologies," which seeks to identify commercially-available products being marketed to the offender monitoring community to facilitate the discovery and communication of meaningful patterns in diverse data that address their strategic and tactical information needs. OMA products may (but aren't necessarily restricted to) use various combinations of statistical analysis procedures, data and text mining, and predictive modeling to proactively analyze information on community-released offenders to discover hidden relationships and patterns in their behaviors and to predict future outcomes. They may feature dashboards (*i.e.*, user-interfaces) that provide easily understandable information in either real-time or off-line to a wide variety of professionals, which are customizable to permit command staff, Probation and Parole Officers (PPOs), crime analysts, and officers on the street to view all content
