Correction to the California State Implementation Plan, South Coast Air Quality Management District**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA is proposing to delete a provision from the California State Implementation Plan (SIP) that was approved into the SIP in error. This provision is part of a rule concerning emissions of volatile organic compounds (VOC) from solvent cleaning operations. EPA has determined that the continued presence of this provision in the SIP is potentially confusing and thus harmful to affected sources, local agencies and to EPA. The intended effect of this proposal is to delete this provision and make the federally enforceable SIP consistent with the SIP as adopted and submitted by the State of California.

DATES: Any comments on this proposal must arrive by August 1, 2005.

SUPPLEMENTARY INFORMATION: This proposal addresses South Coast Air Quality Management District (SCAQMD) Rule 1171. In the Rules and Regulations section of this **Federal Register**, we are taking direct final action to delete a provision from this rule under section 110(k)(6) of the Clean Air Act, which provides EPA authority to correct the SIP without additional State submission. We are deleting this provision without prior proposal because we believe this SIP correction is not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.
