AGENCY: Fish and Wildlife Service, Interior.

ACTION: Initiation of status review and solicitation of new information.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), under the authority of the Endangered Species Act of 1973, as amended (Act), announce the initiation of a status review for the longfin smelt (*Spirinchus thaleichthys*). To ensure that the status review is comprehensive, we are requesting scientific and commercial data and other information regarding this species. Based on the status review, we will issue a 12-month finding, which will address whether the listing may be warranted, as provided in section 4(b)(3)(B) of the Act.

DATES: To allow us adequate time to conduct this review, we request that we receive information on or before April 11, 2011. After this date, you must submit information directly to the Field Office (*see FOR FURTHER INFORMATION CONTACT* section below). Please note that we may not be able to fully address or incorporate information that we receive after the above requested date.

ADDRESSES: You may submit comments by one of the following methods:

SUPPLEMENTARY INFORMATION:

Request for Information

To ensure the status review is complete and based on the best available scientific and commercial information, we request information on the longfin smelt. We request any additional information from governmental agencies, Native American Tribes, the scientific community, industry, and any other interested parties. We seek information on:

- (1) The species' biology, range, and population trends, including:
 - (a) Habitat requirements for feeding, breeding, and sheltering;
 - (b) Genetics and taxonomy;
 - (c) Historical and current range, including distribution patterns;
 - (d) Historical and current population levels, and current and projected trends; and
 - (e) Past and ongoing conservation measures for the species or its habitat.
- (2) The factors that are the basis for making a listing determination for a species under section 4(a) of the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531 *et seq.*), which are:

- (a) The present or threatened destruction, modification, or curtailment of its habitat or range;
 - (b) Overutilization for commercial, recreational, scientific, or educational purposes;
 - (c) Disease or predation;
 - (d) The inadequacy of existing regulatory mechanisms; or
 - (e) Other natural or manmade factors affecting its continued existence.
- (3) The potential effects global climate change may have on the longfin smelt or its habitat.

If, after the status review, we determine that listing the longfin smelt is warranted, we will propose critical habitat (*see definition in section 3(5)(A) of the Act*), under section 4 of the Act, to the maximum extent prudent and determinable at the time we propose to list the species. Therefore, within the geographical range currently occupied by the longfin smelt, we also request data and information on:
