SUPPLEMENTARY INFORMATION: DOE is proposing to extend an information collection pursuant to the Paperwork Reduction Act of 1995. The approved collection is being used for two Clean Cities programmatic efforts. The first is related to a scorecard that assists DOE's Clean Cities coalitions and stakeholders in assessing the level of readiness of their communities for plug-in electric vehicles (PEV). The second effort is intended to develop information that enables DOE to measure the impact and progress of DOE's National Clean Fleets Partnership (Partnership). DOE is not proposing to expand the scope of these information collection efforts.

This information collection request contains: (1) OMB No. 1910-5171; (2) Information Collection Request Title: Clean Cities Vehicle Programs; (3) Type of Review: Renewal; (4) Purpose: DOE's Clean Cities initiative has developed two voluntary mechanisms by which communities and certain fleets can get a better understanding of their readiness to deploy alternative fuel vehicles and their progress in doing so. The voluntary PEV Scorecard is intended to assist its coalitions and stakeholders in assessing the level of readiness of their communities for plug-in electric vehicles. The principal objective of the scorecard is to provide respondents with an objective assessment and estimate of their respective community's readiness for PEV deployment as well as understand the respective community's commitment to deploying these vehicles successfully. DOE intends the scorecard to be completed by a city/county/regional sustainability or energy coordinator. As the intended respondent may not be aware of every aspect of
