

In response to requests to clarify this mineral reservation as it relates to mineral materials, such as sand and gravel, we refer interested parties to the regulations at 43 CFR 3601.71(b), which provides that the owner of the surface estate of lands with reserved Federal minerals may “use a minimal amount of mineral materials” for “personal use” within the boundaries of the surface estate without a sales contract or permit. The regulation provides that all other use, absent statutory or other express authority, requires a sales contract or permit. The BLM refers interested parties to the explanation of this regulatory language in the preamble to the final rule published in the **Federal Register** in 2001, available at <https://www.federalregister.gov/d/01-29001>, which states that minimal use “would not include large-scale use of mineral materials, even within the boundaries of the surface estate” (66 FR 58894). Further explanation is contained in the BLM Instruction Memorandum No. 2014–085 (April 23, 2014), available on the BLM’s website at <https://www.blm.gov/policy/im-2014-085>.

The following numbered terms and conditions will appear on the conveyance documents for the sale parcels:

1. All mineral deposits in the lands so patented, and to it, or persons authorized by it, the right to prospect for, mine, and remove such deposits from the same under applicable law and regulations to be established by the Secretary are reserved to the United States, together with all necessary access and exit rights.

2. A right-of-way is reserved for ditches and canals constructed by authority of the United States under the Act of August 30, 1890 (43 U.S.C. 945).

3. The parcels are subject to valid existing rights.

4. The parcels are subject to reservations for roads, public utilities, and flood control purposes, both existing and proposed, in accordance with the local governing entities’ transportation plans.

5. An appropriate indemnification clause protecting the United States from claims arising out of the patentee’s use, occupancy, or occupations on the patented lands.

To the extent required by law, the parcel is subject to the requirements of Section 120(h) of the CERCLA, as amended. Accordingly, notice is hereby given that the lands have been examined and no evidence was found to indicate that any hazardous substances have been stored for one year or more, nor that any hazardous substances have

been disposed of or released on the subject properties.

No warranty of any kind, express or implied, is given by the United States as to the title, whether or to what extent the land may be developed, its physical condition, future uses, or any other circumstance or condition. The conveyance of a parcel will not be on a contingency basis.

Shonna Dooman,

Field Manager, Las Vegas Field Office.
