

Summary of Collection: A Christmas Tree Promotion, Research and Information Order created under the Commodity Promotion, Research, and Information Act of 1996 (Pub. L. 104–127, 110 Stat. 1032, April 4, 1996, 7 U.S.C. 744–7425) requires collection of information to carry out the program. The program includes projects relating to research, information, advertising, sales promotion, market development and production research to assist, improve, or promote the marketing, distribution, competitive position and stimulate sales of Christmas trees.

Need and Use of the Information: The Christmas tree program will be administered by the Christmas Tree Promotion Board appointed by the Secretary of Agriculture and financed by a mandatory assessment on producers and importers of fresh cut Christmas trees. The program will provide for an exemption for producers and importers that cut and sell or import fewer than 500 Christmas trees annually. The forms covered under this collection require the minimum information necessary to effectively carry out the requirements of the program, and their use is essential to carry out the intent of the Order.

Description of Respondents:

Producers and Importers.

Number of Respondents: 12,455.

Frequency of Responses: Reporting: Annually; Recordkeeping.

Total Burden Hours: 10,700.

SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Baby Kiwi From Chile.

OMB Control Number: 0579–0374.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service regulates the importation of certain fruits and vegetables in accordance with the regulations in “Subpart—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–76).

Under these regulations, fresh baby kiwi from Chile may be imported into

the continental United States under certain conditions, as listed in 7 CFR 319.56–53, to prevent the introduction of plant pests into the United States. The regulations require information collection activities, including an operational workplan, low prevalence production site certification, production site registration, phytosanitary inspections, labeling of containers, identification of fruit in shipping documentation to specify production sites and packing sheds where fruit was processed, and a phytosanitary certificate.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.02 hours per response.

Respondents: Growers and shippers of fresh baby kiwi from Chile and the national plant protection organization of Chile.

Estimated annual number of respondents: 5.

Estimated annual number of responses per respondent: 8,243.6.

Estimated annual number of responses: 41,218.

Estimated total annual burden on respondents: 849 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 4th day of May 2017.

Michael C. Gregoire,

Acting Administrator, Animal and Plant Health Inspection Service.
