GENERAL SERVICES ADMINISTRATION

[Notice-PBS-2013-02; Docket No: 2013-0002; Sequence 12]

Federal Management Regulation; Delegations of Lease Acquisition Authority—Notification, Usage, and Reporting Requirements for General Purpose, Categorical, and Special Purpose Space Delegations

AGENCY: Public Buildings Service (PBS), General Services Administration (GSA).

ACTION: Notice of FMR Bulletin C-2, Delegations of Lease Acquisition Authority.

SUMMARY: The purpose of this notice is to announce FMR Bulletin C-2. The U.S. General Services Administration (GSA) recently completed a review of agencies' lease files for space acquired using a delegation of leasing authority from GSA in accordance with Federal Management Regulation (FMR) Bulletin

2008-B1 (Bulletin 2008-B1). FMR Bulletin C-2 clarifies the conditions, restrictions and reporting requirements specified in the delegation of authority and updates weblinks, the Simplified Lease Threshold and regulation references specified in FMR Bulletin 2008-B1. This bulletin is in keeping with the spirit of Executive Order 13327, "Federal Real Property Asset Management," to maximize the increased governmentwide emphasis on real property inventory management. FMR Bulletin C-2 and all other FMR bulletins may be accessed at <http://www.gsa.gov/fmrbulletins>.

DATES: March 13, 2014.

FOR FURTHER INFORMATION CONTACT:

Contact Ms. Mary Pesina, Director, Center for Lease Delegations, Office of Leasing, Public Buildings Service, at 202-236-1686, or mary.pesina@gsa.gov.

SUPPLEMENTARY INFORMATION: Federal Property Management Regulation (FPMR) Bulletin D-239, published in the **Federal Register** on October 16, 1996 (61 FR 53924), announced a new GSA leasing program called "Can't Beat GSA Leasing" and the delegation of lease acquisition authority issued by the Administrator of General Services to the heads of all Federal agencies in his letter of September 25, 1996. GSA Bulletin FPMR D-239, Supplement 1, published in the **Federal Register** on December 18, 1996 (61 FR 66668), issued supporting information for the delegation. GSA Bulletin FMR 2005-B1, published in the **Federal Register** on May 25, 2005 (70 FR 30115), revised and re-emphasized certain procedures associated with the delegation of General Purpose leasing authority.

On August 24, 2007, the Government Accountability Office and the GSA Office of Inspector General issued a report recommending that GSA provide centralized management and oversight of all lease delegation activities to ensure that all federal agencies procuring leased space under delegated authority follow the conditions, restrictions and reporting requirements specified in the delegation of authority. In response to the audit recommendations, GSA centralized its management and oversight of all GSA-authorized lease delegations and, on November 19, 2007, published FMR Bulletin 2008-B1 in the **Federal Register** (72 FR 65026), which limited General Purpose delegations of lease authority to no more than 19,999 rentable square feet of space and implemented management controls commensurate with the risks at that threshold. In addition, FMR Bulletin 2008-B1 established new requirements

for agencies requesting authorization to use the General Purpose and Special Purpose delegation authority and established revised reporting requirements, including the submission of documents to GSA at various points in the lease acquisition process, and required agencies to have in place an organizational structure to support the delegation, ensure compliance with all applicable laws, regulations and GSA directives governing the lease acquisition and administer the lease. FMR Bulletin 2008–B1 also addressed requirements for another longstanding delegation for Categorical space, as provided in 41 CFR part 102–73.

FMR Bulletin C–2 re-emphasizes and updates the conditions, restrictions and reporting requirements applicable to GSA leasing delegations.

Dated: March 10, 2014.

Anne E. Rung,

Associate Administrator.

Proposed Project

Evaluation of Rapid HIV Home-Testing among MSM Trial—New—National Center for HIV/AIDS, Viral Hepatitis, STD, TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Innovative testing strategies are needed to reduce levels of undiagnosed HIV infection and increase early access to treatment. Rapid home HIV tests may play an important role in efforts to reduce both HIV morbidity and mortality. Given the unrelenting HIV crisis among MSM and the release into the market of a rapid HIV test for at-home use, it is necessary to evaluate the impact of providing rapid HIV home-test kits on repeat HIV testing, linkage to care, partner testing, serosorting, and HIV sexual risk behaviors among MSM. This information will assist the Division of HIV/AIDS Prevention (DHAP) in developing recommendations, future research and program needs concerning home-testing for MSM.

Specific aims

This study is a randomized trial which aims to evaluate the use and effectiveness of home-test kits as a public health strategy for increasing testing among MSM. A secondary aim of the randomized trial is to evaluate the extent to which MSM (both HIV-negative and HIV-positive) distribute HIV home-test kits to their social and sexual networks.

The population for the randomized trial will be men over the age of 18 years who self-report that they have had anal sex with at least one man in the past year. We will recruit approximately 3,200 men who report their HIV status to be negative or who are unaware of their HIV status and 300 men who self-report that they are HIV-positive. Men will be recruited from the 12 cities: Atlanta, Baltimore, Chicago, Dallas, the District of Columbia, Houston, Los Angeles, Miami, New York City, Philadelphia, San Francisco, and San

Juan. We will ensure that at least 20% of participants are black and at least 15% are Hispanic. Recruitment will be conducted through banner advertisements displayed on social networking sites such as Facebook and dating and sex-seeking sites such as Manhunt and Adam4Adam.

This study also has a qualitative component that aims to examine the experiences of participants in the randomized control trial. Participants for the qualitative data collection will be drawn from the randomized control trial. Two data collection techniques will be used: Focus group discussions (FGD) (both online and in-person) and individual in-depth interviews (IDIs).

CDC is requesting approval for a 3-year clearance for data collection. All participant consenting and data collection for the RCT will be completed using an online reporting system. Data will be collected using an eligibility screener, an online study registration process, a baseline survey, HIV test results reporting system, and follow-up surveys. Men will be asked to use the study Web site or download and access a secure cell phone application prior to enter results of their rapid HIV home-tests that they receive and conduct at home and to take the follow-up surveys which will collect information on HIV testing results and behaviors and sexual activities. Focus group discussions and in-depth interviews will be used to examine experiences of participants in the RCT.

The duration of the eligibility screener is estimated to be 5 minutes; the RCT consent 10 minutes; the study registration process 5 minutes; the baseline survey 15 minutes; the reporting of home-test results 5 minutes; the follow-up surveys 10 minutes; the focus group and individual interview consents 10 minutes each; the focus group discussion 1 hour and 30 minutes; and the in-depth interviews 1 hour and 15 minutes.

There is no cost to participants other than their time. The total estimated annual burden hours are 7,085.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average hours per response
Prospective Participant	Eligibility Screener	24,000	1	3/60
Enrolled participant	Study Registration	14,000	1	5/60
Enrolled participant	Consent for RCT	3,200	1	10/60
Enrolled participant	Baseline Survey for RCT	3,200	1	15/60
Enrolled participant	Baseline Survey for HIV-positive group	300	1	15/60
Enrolled participant	Reporting of Home-test Results during study	1,600	3	5/60
Enrolled participant	Follow-up Surveys for RCT	3,200	4	10/60
Enrolled participant	Follow-up Surveys for HIV positive group	300	2	10/60
Enrolled participants	Reporting of Home-test Results at completion of study	3,200	1	5/60
