[Project No. 13954-000]

Mahoning Hydropower, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

January 31, 2011.

On December 30, 2010, Mahoning Hydropower, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Berlin Lake Hydroelectric Project (Berlin Lake Project or project) to be located on the Mahoning River, in the town of Berlin Center, in Portage and Mahoning counties, Ohio. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application

during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission. The project would use Federal lands owned and managed by the United States Army Corps of Engineers' Pittsburgh District.

The proposed project would consist of the following: (1) A 40-foot-long, 30-foot-wide concrete powerhouse located below the existing Berlin Lake Dam containing one tubular S-Type propeller turbine-generator unit with a capacity of 1.1 megawatts placed inside the existing 5-foot-wide, 7-foot-tall, 80-foot-long sluice intake conduit through the existing eastern pier; (2) a new 12.5-kilovolt, 300-foot-long transmission line connecting the powerhouse to an existing sub-transmission system to the east; and (3) appurtenant facilities. The estimated annual generation of the Berlin Lake Project would be 6,200 megawatt-hours at a head range of 40-70 feet.

What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
