Form Number(s): None.

Type of Request: Regular submission (extension of a currently approved information collection).

Number of Respondents: 100.

Average Hours per Response: Reports 20 minutes, updates 10 minutes.

Burden Hours: 107.

Needs and Uses: This request is for renewal of a currently approved information collection. The purpose of this information collection is to assist state and federal Natural Resource Trustees in more efficiently carrying out the restoration planning phase of Natural Resource Damage Assessments (NRDA), in compliance with the National Environmental Policy Act of 1969, 42 U.S.C. 4321–4370d; 40 CFR 1500–1500 and other federal and local statutes and regulations as applicable. The NRDA Restoration Project Information Sheet is designed to facilitate the collection of information on existing, planned, or proposed restoration projects. This information will be used by the Natural Resource Trustees to develop potential restoration alternatives for natural resource injuries and service losses requiring restoration,

during the restoration planning phase of the NRDA process. This information is provided by the public on a voluntary basis. The information provided benefits the public by informing the NRDA restoration process. However, there are no individual benefits that depend on the submission of information. Individuals can update the information as needed, but there is no required update frequency.

Affected Public: State, local, or tribal governments; Individuals or Households; Business or other For-Profits organizations; Not-For-Profit institutions; Farms; and the Federal Government.

Frequency: Annually and on occasion.

Respondent's Obligation: Voluntary.

Legal Authority: None.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0497.

Fisheries of the South Atlantic; South Atlantic Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a seminar series presentation via webinar.

SUMMARY: The South Atlantic Fishery Management Council (Council) will host a presentation on a citizen-science approach to characterize shark depredation in recreational fisheries via webinar November 8, 2022. The

presentation is part of an on-going seminar series hosted by the Council on scientific studies relevant to fisheries in federal waters off the South Atlantic U.S. coast.

DATES: The webinar presentation will be held on Tuesday, November 8, 2022, from 1 p.m. until 2:30 p.m.

ADDRESSES: The presentation will be provided via webinar. The webinar is open to members of the public. Information, including a link to webinar registration will be posted on the Council's website at: <https://safmc.net/safmc-seminar-series/> as it becomes available.

Council address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Kim Iverson, Public Information Officer, SAFMC; phone: (843) 302–8439 or toll free: (866) SAFMC–10; fax: (843) 769–4520; email: kim.iverson@safmc.net.

SUPPLEMENTARY INFORMATION: The Council will host a presentation from Florida Atlantic University and Mississippi State Sea Grant entitled “A Citizen-science Approach to Characterize Shark Depredation in Recreational Fisheries”. The presentation will address depredation, defined as the partial or complete removal of a target species by a non-target species. Depredation is an increasingly topical human-wildlife conflict worldwide. Effectively managing and mitigating depredation requires a comprehensive characterization of the interaction; however, our current understanding of depredation is limited. Thus, the goals of this project were to combine content analysis, angler surveys, and molecular tools to characterize depredation in Florida's recreational hook and line fishery. A question-and-answer session will follow the presentation. Members of the public will have the opportunity to participate in the discussion. The presentation is for informational purposes only and no management actions will be taken.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **ADDRESSES**) 5 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 18, 2022.
