Submission for OMB Review; Comment Request: A Multi-Center International Hospital-Based Case- Control Study of Lymphoma in Asia (AsiaLymph) (NCI)

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH), has submitted to the Office of Management and Budget

(OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the **Federal Register** on February 24, 2012 (77 FR 11136) and allowed 60 days for public comment. There was one public comment that was not relevant to the scope, methodology, or burden of the study. The program staff submitted a response to the public comment. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: A Multi-Center International Hospital-Based Case-Control Study of Lymphoma in Asia (AsiaLymph) (NCI) (OMB No. 0925-0654). **Type of Information Collection Request:** Extension. **Need and Use of Information Collection:** Incidence rates of certain lymphomas have increased in the United States and in many other parts of the world. The contribution of environmental, occupational, and genetic factors to the cause of lymphoma has generated a series of new findings from epidemiological studies conducted in

the United States that have attempted to explain this increase. This study focuses on collecting critically needed information to understand and reduce the cancer burden from lymphoid malignancies in the Asian population, the incidence of which has risen in recent decades. Specifically, environmental exposures to industrial emissions, genetic susceptibility, viral exposures, early life exposures, ultraviolet (UV) radiation exposures, and other risk factors for lymphoma overall and specifically for populations in Asia will be examined. Patients from 19 participating hospitals will continue to be screened and enrolled. There will be a one-time computer-administered interview, and patients will also be asked to provide a one-time blood and buccal cell mouth wash sample and lymphoma cases will be asked to make available a portion of their pathology sample. **Frequency of Response:** Once. **Affected Public:** Individuals. **Type of Respondents:** Newly diagnosed patients with lymphoma or patients undergoing surgery or other treatment for non-cancer related medical issues who live in Taiwan and in Hong Kong, Chengdu and Tianjin, China will be enrolled at treating hospitals. The annual reporting burden is estimated at 5,302 hours (see Table below). There are \$77,000 in Capital Costs, Operating Costs, and/or Maintenance Costs to report.

ESTIMATES OF ANNUAL BURDEN HOURS

Category of respondents	Types of respondents	Number of respondents	Frequency of response	Average time per response (minutes/hour)	Annual burden hours
Individuals	Patients to be Screened	3,100	1	5/60	258
	Patients with Lymphoma	1,100	1	105/60	1,925
	Other Patients	1,100	1	105/60	1,925
	Study Pathologists	19	58	5/60	92
	Interviewers	19	116	30/60	1102
Total					5,302

Request For Comments: Written comments and/or suggestions from the public and affected agencies are invited to address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proposed performance of the functions of the agency, including whether the information may have practical utility; (2) The accuracy of the estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the

collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the Attention: NIH Desk Officer, Office of Management and Budget, at OIRA_submission@omb.eop.gov or by fax to 202-395-6974. To request more information on the proposed project or

to obtain a copy of the data collection plans, contact Nathaniel Rothman, Senior Investigator for the Occupational and Environmental Epidemiology Branch, Division of Epidemiology and Genetics, National Cancer Institute, 6120 Executive Boulevard, Room 8118, Rockville, MD 20892 or call non-toll-free number 301-496-9093 or email your request, including your address to: rothmann@mail.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.
