

Order 12114, including Wastewater Treatment Construction Grants Program facilities, State and Tribal Assistance Grant recipients and new source National Pollutant Discharge Elimination System permittees.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 312 (total).

Frequency of response: On occasion.

Total estimated burden: 38,472 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,607,085 (per year), includes \$8,452 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the total estimated respondent burden compared with the ICR currently approved by OMB. However, a slight increase to the estimated O&M costs has occurred related to CE documentation and have been adjusted in the renewal ICR based on inflationary changes.

John Moses,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2012-0687; FRL-9534-3]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHP for Stationary Combustion Turbines (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "NESHP for Stationary Combustion Turbines (40 CFR Part 63, Subpart YYYY) (Renewal)" (EPA ICR No. 1967.05, OMB Control No. 2060-0540) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through September 30, 2013. Public comments were previously requested via the **Federal Register** (77 FR 63813) on October 17, 2012, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor

and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before August 21, 2013.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2012-0687, to: (1) EPA online, using www.regulations.gov (our preferred method), by email to: docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed either online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The affected entities are subject to the General Provisions of the NESHP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart YYYY.

Owners or operators of the affected facilities must submit an initial notification report, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is

inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities: Stationary combustion turbines.

Respondent's obligation to respond: Mandatory (63 CFR part 63, subpart YYYY).

Estimated number of respondents: 105 (rounded).

Frequency of response: Initially, annually, and semiannually.

Total estimated burden: 1,338 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$165,056 (per year), includes \$10,750 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 903 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to several adjustments, which are stated below:

First, we have revised the number of respondents to make ICR estimates consistent with the economic impact analysis, which contains the most recent information on existing and new sources. Based on the analysis, an average of 96 existing and 8.7 new sources per year will be subject to the standard. By contrast, the most recently approved ICR estimated 22 existing and 9 new sources per year, and did not provide a clear basis for its estimates and underlying assumptions. The increase in labor burden and cost for both respondents and the Agency is primarily due to the revised number of sources, particularly existing sources which accounts for industry growth.

Second, we have revised both respondent and Agency labor burdens and costs so that they accurately reflect the reporting and recordkeeping requirements associated with each subcategory. The previous ICR only reflected burdens attributed to new sources in the gas-fired and oil-fired subcategories, and did not account for any sources in the landfill/digester gas-fired subcategory.

Finally, there is an increase in the capital/startup cost as compared to the previous ICR. This increase is the result of including contractor labor associated with catalyst inlet temperature monitor installation. This labor was presented in the previous ICR as a respondent burden rather than a capital cost. Since the contractor labor applies solely to a capital/startup activity, it should be presented it as a capital/startup cost rather than a respondent burden. We

also have updated the labor rates to reflect current private-industry rates.

John Moses,

Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Standards for Pesticide Containers and Containment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "Standards for Pesticide Containers and Containment" (EPA ICR No. 1632.04; OMB Control No. 2070-0133) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through July 31, 2013. The ICR, which is abstracted below, describes the nature of the information collection activity and its expected burden and costs. Copies of the ICR and related documents are available in the docket.

DATES: Additional comments may be submitted on or before August 21, 2013.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OPP-2012-0737, to (1) EPA online using <http://www.regulations.gov> (our preferred method), by email to oppnrcic@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <http://www.regulations.gov> or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This information collection request covers the information collection activities associated with the container design and residue removal requirements and containment structure requirements. With respect to the container design and residue removal requirements, the information collection activities are associated with the requirement that businesses subject to the container regulations (pesticide registrants) and repackaging regulations (pesticide registrants and refillers) maintain records of test data, cleaning procedures, certain data when a container is refilled, and other supporting information. These records are subject to both call-in by EPA and on-site inspection by EPA and its representatives.

EPA has not established a regular schedule for the collection of these records, and there is no reporting. With respect to the containment structure requirements, the information collection activities are associated with the requirement that businesses subject to the containment structure regulations maintain records of the: (1) Monthly inspection and maintenance of each containment structure and all stationary bulk containers; (2) duration over which non-stationary bulk containers holding pesticide and not protected by a secondary containment unit remain at the same location; and (3) construction date of the containment structure.

The businesses subject to the containment structure regulations include agrichemical retailers and refilling establishments, custom blenders and commercial applicators of agricultural pesticides. The records have to be maintained by the owners and operators of such businesses. There is no regular schedule for the collection of either of these records, nor does EPA

anticipate a call-in of records at some future date. Instead, the records would be available to inspectors to ensure that businesses are in compliance with containment requirements. These inspections are generally conducted by the states, which enforce FIFRA regulations through cooperative agreements with EPA.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this ICR include pesticide registrants and businesses who formulate pesticide products or pesticide formulation intermediates (NAICS code 325320), farm supply wholesalers (NAICS code 422910), swimming pool applicators (NAICS codes 561790, 453998, and 235990), and agricultural (aerial and ground) commercial applicators (NAICS code 115112).

Respondent's obligation to respond: mandatory under sections 3, 8, 19, and 25 of the Federal Insecticide and Rodenticide Act (FIFRA) (7 U.S.C. 136f, 136q, and 136w).

Estimated number of respondents: 23,586.

Frequency of response: On occasion.

Total estimated burden: 169,660 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$6,248,079 (per year), includes \$5,561,578 for container regulations and \$686,501 for containment regulations.

Changes in the Estimates: The renewal of this ICR will result in an overall decrease of 4,890.5 hours in the total estimated respondent burden identified in the currently approved ICR. This decrease reflects three revisions to the estimated annual burden. First, EPA received very few waiver requests for complying with the non-refillable container regulations, so the estimated rate of registrants requesting waivers decreases from 5% to 1%. The decrease in estimated waiver requests resulted in a corresponding decrease in the associated burden. Second, since registrant repacking activities are similar to the repacking activities conducted by refillers and swimming pool supply companies, EPA increased the average annual burden per registrant respondent from 1 hour to 12.5 hours per respondent to be consistent with the average burden per refiller or swimming pool supply company. Third, for entities subject to the containment requirements, some activities in the previous ICR were one-time activities completed by the compliance date of August 16, 2009. This ICR includes only the ongoing annual information collection activities for the containment requirements,
