If MARAD determines, in accordance with 46 U.S.C. 12121 and MARAD's regulations at 46 CFR part 388, that the employment of the vessel in the coastwise trade to carry no more than 12 passengers will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, MARAD will not issue an approval of the vessel's coastwise endorsement eligibility. Comments should refer to the vessel name, state the commenter's interest in the application, and address the eligibility criteria given in § 388.4 of MARAD's regulations at 46 CFR part 388.

SUPPLEMENTARY INFORMATION:

1. Overview

On October 3, 2023, DOT issued a Commercial eLoran Capability RFI, DOT–OST–2023–0118 (88 FR 68283), to determine:

(1) If there is interest from private entities in offering a U.S. commercial eLoran service to the general public in the United States on a fee-for-service basis without any Federal investment, subsidy, procurement commitment or other commitment of credit or budgetary resources.

(2) If respondent has an interest in offering a U.S.-based commercial eLoran service on a fee-for-service basis, identify what impediments stand in the way of respondent offering a U.S. commercial eLoran service. If lack of access to any federally-controlled assets and non-budgetary assistance related to utilizing such federally-controlled assets are identified as impediments to offering such a service, a subsequent Request for Information may be issued to obtain additional data.

This RFI was issued specifically to inform USCG divestiture of their legacy Loran sites, as required by section 11211 of the FY 2023 National Defense Authorization Act (NDAA; 14 U.S.C. 914). Per the FY 2023 NDAA, if DOT or DoD expresses interest in obtaining any of the Loran-C properties, the properties will be transferred from USCG to DOT. No respondents to the RFI identified a need for the USCG Loran properties to provide a commercial eLoran capability in the United States. Therefore, neither DOT, nor DoD, are seeking transfer of the Loran properties from the USCG.

Issued this day of February 15, 2024, in Washington, DC.

Robert C. Hampshire,

Deputy Assistant Secretary for Research and Technology, U.S. Department of Transportation.
