SUPPLEMENTARY INFORMATION:

I. Background

In accordance with section 51.118 of title 10 of the *Code of Federal Regulations* (10 CFR), "Final environmental impact statement—notice of availability," the NRC is making available for public inspection NUREG–1437, Supplement 7a, Second Renewal, regarding the subsequent license renewal of Virginia Electric and Power Company's (Dominion), renewed Facility Operating License Nos. NPF–4 and NPF–7 for an additional 20 years of operation for NAPS. A notice of availability of the site-specific draft EIS (DEIS) (NUREG–1437, Supplement 7a, Second Renewal) was published in the **Federal Register** on January 8, 2024, (89 FR 960) by the NRC, and on January 5, 2024 (89 FR 781) as amended January 19, 2024 (89 FR 3653), by the Environmental Protection Agency. The public comment period on the site-specific DEIS (NUREG–1437, Supplement 7a, Second Renewal) ended on February 22, 2024, and the comments received on the site-specific DEIS are addressed in the final EIS (NUREG–1437, Supplement 7a, Second Renewal).

II. Discussion

The site-specific draft EIS (NUREG–1437, Supplement 7a, Second Renewal) superseded a draft Supplemental EIS (SEIS) (NUREG–1437, Supplement 7, Second Renewal), that the NRC had issued for public comment on August 25, 2021 (86 FR 47525). The site-specific final EIS addresses the comments received on both the site-specific draft EIS (NUREG–1437, Supplement 7a, Second Renewal) and the previous draft SEIS (NUREG–1437, Supplement 7, Second Renewal). As discussed in Chapter 4 of the final EIS (NUREG–1437, Supplement 7a, Second Renewal), the NRC staff has determined that the adverse environmental impacts of subsequent license renewal for NAPS for an additional 20 years beyond the expiration dates of the initial renewed licenses are not so great that preserving the option of subsequent license renewal for energy-planning decisionmakers would be unreasonable. This recommendation is based on: (1) information provided in the

environmental report, as supplemented, and other documents submitted by Dominion; (2) consultation with Federal, State, Tribal, and local governmental agencies; (3) the NRC staff's independent environmental review; and (4) consideration of public comments received during the scoping process, on the site-specific DEIS (NUREG–1437, Supplement 7a, Second Renewal), and on the previous draft SEIS (NUREG–1437, Supplement 7, Second Renewal).
