

The Mineral Leasing Act of 1920 (30 U.S.C. 181 *et seq.*) and the Geothermal Steam Act of 1970 (30 U.S.C. 1001–1025) authorize the Secretary of the Interior to issue leases for development of Federal oil and gas and geothermal resources. The Act of August 7, 1947 (Mineral Leasing Act of Acquired Lands) authorizes the Secretary to lease lands acquired by the United States (30 U.S.C. 341–359). The Department of the Interior Appropriations Act of 1981 (42 U.S.C. 6508) provides for the competitive leasing of lands for oil and gas in the National Petroleum Reserve-Alaska (NPRA). The Attorney General's Opinion of April 2, 1941 (40 Opinion of Attorney General 41) provides the basis under which the Secretary issues certain leases for lands drained of mineral resources. The Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 *et seq.*) provides the authority for leasing lands acquired from the General Services Administration.

The regulations at 43 CFR 3106, 3135, and 3216 outline the procedures for assigned record title interest and transferring operating rights in a lease to explore for, develop, and produce oil and gas resources and geothermal resources.

The assignor/transferor provides the needed information to comply with the regulations in order to process the assignments of record title interest or transfer of operating rights (sublease) in a lease for oil and gas or geothermal resources. The assignor/transferor submits the required information to BLM for approval in accordance with 30 U.S.C. 187a and the regulations at 43 CFR 3106, 3135, and 3216.

BLM uses the information submitted by the assignor/transferor to identify the interest ownership that is assigned or transferred and the qualifications of the assignee/transferee. BLM determines if the assignee/transferee is qualified to obtain the interest sought and ensures the assignee/transferee does not exceed statutory acreage limitations.

Based on BLM's experience administering the activities described above, we estimate the public reporting burden for the information collected to average 30 minutes per response. The respondents include individuals, small businesses, and large corporations. The frequency of response is annual. The estimated number of response per year is 60,000. The estimated total annual burden is 30,000 hours. BLM specifically requests your comments on its estimate of the amount of time that it takes to prepare a response.

BLM will summarize all responses to this notice and include them in the

request for Office of Management and Budget approval. All comments will also become a matter of public record.

Dated: December 18, 2000.

This order temporarily closes 1,320 acres of public land to public use and entry. This temporary closure area encompasses the following public land:

Salt Lake Meridian, Utah

T.10 S., R. 24 E.,

Sec. 22, E $\frac{1}{2}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$;

The closure prohibits all use, entry, or access onto the affected public lands; however, the access restriction may be waived under extraordinary circumstances where limited, short term, emergency access is warranted and appropriate clearances and authorization are obtained from the authorized officer.

Where emergency access is authorized by the authorized officer, it would be conditioned on the following provisions:

All persons entering and leaving the closure area shall be accompanied by personnel from the BLM's Vernal Field Office and only after said BLM staff

have determined that the area is safe for site visitation purposes.

All persons allowed emergency access into the closure area shall waive and release all direct and indirect claims that may occur against the United States for liability for any loss, damage, personal injury, or death that may occur as a result of their access to the closure area and will indemnify and hold harmless the United States. All such incidents shall immediately be reported to the BLM Field Office.

The purpose of this closure is to protect human life, ensure public safety, and to prevent human contact with a known hazardous situation. A map of the area affected by this closure is on file and may be viewed at the Vernal Field Office of the BLM.

EFFECTIVE DATE: The closure order is effective from January 1, 2001, through December 31, 2002, unless, prior thereto, it is rescinded or modified by the authorized officer.
