

(4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Student Assistance General Provisions—Subpart K—Cash Management.

OMB Control Number: 1845–0049.

Type of Review: Revision of an existing information collection.

Respondents/Affected Public: Private Sector, Individuals or households, State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 308,445.

Total Estimated Number of Annual Burden Hours: 29,516.

Abstract: This is a request for the revision of the information collection for the regulations that govern the application for and approval by the Secretary of assessments by a private test publisher or State that are used to measure a student's skills and abilities to determine eligibility for assistance through the Title IV student financial assistance programs authorized under the Higher Education Act of 1965, as amended, when a student does not have a high school diploma or its recognized equivalent. As of July 1, 2012, the new law eliminated all but the completion of a homeschool program as an eligibility alternative previously available. Due to these changes, there is a decreasing pool of student applicants who would be eligible to take a Department approved ability to benefit exam to determine Title IV student aid eligibility.
